JAMES R. ZAZZALI
ATTORNEY GENERAL

The Honorable Brendan T. Byrne
Governor of the State of New Jersey

Honorable Members of the Senate and
Assembly of the State of New Jersey

Dear Governor and Members of the Legislature:

Pursuant to N. J. S. A. 52:17B-5.5, I am submitting the fourteenth annual report on crime in New Jersey. This information is based on statistics submitted to the New Jersey Uniform Crime Reporting System by every New Jersey law enforcement agency for the year 1980.

This report has been prepared to provide reliable and comprehensive analysis of crime data for the criminal justice community. The graphic and statistical representation of the various crime factors should assist law enforcement administrators in planning programs to combat crime throughout New Jersey.

It would have been impossible to complete this report without the cooperation of New Jersey's municipal, county, state and other law enforcement agencies, 583 of whom contributed to this effort in 1980. It is with appreciation to these dedicated public servants, and in the interest of more effective law enforcment for all of the citizens of New Jersey, that this fourteenth annual Uniform Crime Report is submitted.

Respectfully,

James R. Zazzali
Attorney General of New Jersey

IN MEMORIAM

Members of all Law Enforcement Agencies, and the entire criminal justice community extend their sympathy to the families of the three law enforcement officers killed in the line of duty in New Jersey in 1980.

John F. Gottfried
Newark City Police Department
Enlisted: June 10, 1958 Died: November 28, 1980

William J. Perry
Port Authority of New York and New Jersey Police Department
Enlisted: February 7, 1977 Died: December 22, 1980

Allen J. Fednik
Hackensack City Police Department
Enlisted: July 30, 1973 Died: March 5, 1980

DEDICATION

"MAJOR WILLIAM A. ZANINELLI"

This issue of the "Crime in New Jersey" report is dedicated to Major William A. Zaninelli, New Jersey State Police. Major Zaninelli was given the responsibility of establishing an improved system of uniform crime reporting in 1967. His dedication to duty, in this regard, has resulted in one of the finest crime reporting systems in this nation, and is in the finest tradition of the New Jersey State Police.

SECTION I

SYNOPSIS UNIFORM CRIME REPORTING PROGRAM

THE NEW JERSEY UNIFORM CRIME REPORTING SYSTEM

DEFINED

The New Jersey Uniform Crime Reporting System involves the uniform compilation, classification, and analysis of crime statistics reported by all police agencies of the state pursuant to guides and regulations prescribed by law.

The statute which establishes the Uniform Crime Reporting System (N.J.S.A. 52:17 B-5.1 et seq) empowers the Attorney General to collect, gather, assemble, and collate information which will be of assistance in the proper administration of criminal justice. The Attorney General and the New Jersey State Police (the agency designated by the Attorney General to establish the Uniform Crime Reporting System), in an attempt to achieve uniformity with the FBI reporting system and to establish a broad base for the collection of data involving anti-social behavior, and other relevant information with respect thereto, have defined the word "crime" to include acts which technically, within our state, are not considered crimes. In this reporting system, the word "crime" includes some "disorderly persons offenses." It also includes, in a category entitled "all other offenses," violations of municipal ordinances. References to the relevant tables which set forth the Class I and Class II offenses contained in this report clearly indicate what is covered.

PURPOSE

Effective law enforcement requires the coordination of the law enforcement activities within and among political subdivisions. Special attention must often be devoted to a selective and concentrated effort both geographically, as well as in terms of a specific pattern and type of criminal behavior. Selective and coordinated enforcement becomes possible only when the type and volume of crime can be analyzed on the basis of accurate information comprehensively developed and systematically collated. Information revealing the location, frequency, and nature of crime is essential to this purpose. It is for these reasons that New Jersey's Uniform Crime Reporting System was developed.

DEVELOPMENT

The New Jersey Uniform Crime Reporting Law was enacted on May 16, 1966 and became effective January 1, 1967. Responsibility for the establishment, direction, control and supervision of the Uniform Crime Reporting System was assigned to the State's Attorney General. After passage of the law, the Attorney General, as provided by the statute, designated the New Jersey State Police as the agency to collect, gather, assemble and collate information from the law enforcement jurisdictions within the state.

Prior to the enactment of the law, and at the request of the Attorney General, the New Jersey State Police conducted research and study of crime reporting systems then operational throughout the country. Study results established that adoption of a reporting program paralleling that of the federal system of Uniform Crime Reporting would be the soundest approach toward development of a state system. The obvious advantage found in the adoption of the federal system included the desirability of having compatible state and federal systems thereby allowing absorption of state crime data into the national level.

The Committee on Uniform Crime Reporting of the New Jersey State Chiefs of Police Association has served the program in an advisory capacity since 1966. The contributions made by this committee have proven invaluable and indeed, insured the success of the program. This body continues to work closely with the Uniform Crime Reporting Unit of the New Jersey State Police to improve further the quality of reporting and to recommend additional program standards, policies and procedures.

During the development phase of the program a study of the federal and various state systems of crime reporting revealed the importance of a sound internal police records system, if accurate crime statistics were to be forthcoming. Upon recognition of this factor, the State Police revised completely their method of internal reporting in order to meet the requirements of the Federal System of Uniform Crime Reporting. This step not only hastened program development but also proved invaluable throughout the operational phase.

Education of contributors to the program in the areas of mechanics, methods and concepts must be a constant operational requirement, if continued system adherence and valid statistics are to be expected. This vital need is satisfied by the personal contact between the four State Troopers assigned as Field Representatives, and the contributing agencies.

The vitally important task of maintaining close liaison is obvious when it is realized that services now are extended to the 583 law enforcement agencies of the state. Although each contributor to the program is supplied with the "Uniform Crime Reporting Guide" describing system procedures and mechanics, personnel changes within reporting departments and program refinements make the educational phase a continuing one.

As an adjunct to the program, the New Jersey State Police has offered its revised method of internal reporting to those police departments who wish to adopt it. In all cases of report adoption and record up-dating, necessary guidance and instruction is provided by the Field Representative. The personal contact between the Field Representative and the contributor not only serves as a rapid means to resolve areas of report error, but also provides the opportunity to discuss other areas of mutual interest, thus establishing an additional communication link between municipal, county and state law enforcement agencies.

PROGRAM EVALUATION

The scope of mandatory crime reporting in New Jersey extends far beyond the stated purpose of the initial program. The compilation and publication of an annual report, which identifies and offers analysis of the extent and nature of crime on a state, county and municipal level, may be considered an end in itself. However, practical application of such data must be made before the program can be judged substantive.

Police executives throughout the state are making increased use of this data in administrative, planning and operational determinations for their respective jurisdictions. During 1977, the State Police Uniform Crime Reporting Unit rendered operational assistance to municipal police agencies by providing individual analysis of statistics as they related to specific crime problems and for use in identifying necessary police manpower and equipment needs. Program requirements have also increased police efficiency in the areas of reporting and recordkeeping. Examples of program application, as discussed here, aid police in their day to day operations and contribute toward the constant effort of upgrading the quality of police services in the community.

The State Law Enforcement Planning Agency, which was established in August of 1968 to conform with the provisions of the Omnibus Crime Control and Safe Streets Act of 1968, has the responsibility of improving law enforcement throughout the state. Since its inception, in all of its determinations as to application of allocated funds, this agency has used analyzed crime data obtained through the Uniform Crime Reporting Program. The establishment of crime rates on state, county and municipal levels with identification of specific crime problems allows the agency to construct priorities, formulate plans and implement these plans to the benefit of the state and all units of local government. This administrative application of such crime data illustrates the far-reaching effect the program has on all efforts to combat crime in the state.

Since 1967, many states have studied the New Jersey system for adoption within their respective states. Several of these presently have ongoing programs based on the New Jersey system and many more of the remaining states are in the process of implementing similar programs.

The element of compatibility of crime statistics between state and federal programs is vital, and evaluation must include consideration of the degree of that compatibility. The Uniform Crime Reporting Unit of the State Police has worked closely with the members of the Federal Bureau of Investigation who administer the National Uniform Crime Reporting Program. Invaluable aid and assistance given by the FBI has allowed the New Jersey program to become compatible with that of the national program. This compatibility allows absorption of state crime data into the national system without lengthy and costly conversion processes.

On January 1, 1969, the FBI, the sole collector of National Uniform Crime Reports in the states and counties since 1930, eliminated the direct collection of National Uniform Crime Reports from the police of New Jersey. This procedure change followed a two-year evaluation of the New Jersey program by the FBI, and resulted in an agreement wherein uniform crime reports for each municipality of the state are now being submitted to the national program by the State Police.

REFINEMENT OF THE SYSTEM

The Uniform Crime Reporting Program of New Jersey, is recognized as an effective vehicle to increase the efficiency of police operations in every municipality of the state. Originally, the System was designed to fulfill the need for accurate crime statistics for use in police administration, planning and operations. In its current status it does answer these needs to a great degree, but has not yet reached full potential as an operational tool.

The collection of meaningful data to supplement that which is normally collected is a vital element of the system. This supplemental information regarding crime and the criminal enters the system by way of special surveys and samplings. Periodic collection of such information enables better identification of specific crime problems and those factors which contribute to them. Analysis of refined information and dissemination to contributors provides additional intelligence upon which more effective police action can be based.

Criminal mobility had been surveyed during the earlier stages of the Uniform Crime Reporting Program, however, the mobility of criminals in the state had not been addressed since the advent of New Jersey's extensive Federal Interstate Highway System. To investigate this concern, a sample survey of thirty-nine municipalities traversed by Interstate 80 and 280 was performed, and the subsequent results of this Uniform Crime Reporting Survey confirmed the fact that interstate roadways afford criminals swift avenues to and from municipalities previously difficult to reach.

Based on the current Uniform Crime Reports submitted by the police departments throughout the state, a monthly "feedback" report is disseminated to each contributor to the program. This "Monthly Crime Trend Feedback Report" presents an accurate account of the status of crime in each municipality of the state. The report contains information as to the type and time of criminal operations and crime targets, as well as the volume and trend of crime within each municipality. In addition to comparing the current month with the same month of the previous year, further analysis is done for a current cumulative monthly total compared to the same period of the previous year. A trend for two prior years within the same crime categories is also established.

In addition to Monthly Crime Trend Feedback Reports, the Uniform Crime Reporting Unit updates and implements recordkeeping systems for Criminal Justice agencies upon request. To assist in this updating of reporting techniques, the Unit has written, published, and distributed a "Law Enforcement Internal Records Systems Guide" (LEIRS). The Unit also improved its capabilities to provide individual crime analyses for requesting Criminal Justice agencies.

In 1971, crime statistics by urban, suburban and rural classifications were collated and analyzed for the first time since the beginning of the program in 1967. These statistics were presented in the 1971 publication and will be continued in all future publications.

COLLECTION OF CRIME DATA

As required by statute, all law enforcement agencies in the state submit crime reports to the program. During the year 1980, offense and related supplementary information, as well as arrest data, were received from 482 full-time municipal police departments, 30 special part-time municipal police departments and the New Jersey State Police who provided the necessary information for the 55 municipalities without local police services.

In addition to the above agencies, arrest data were received for the state's 21 county prosecutors' and 21 sheriffs' offices, 4 county police departments and 5 county park police departments. In order to incorporate all New Jersey law enforcement under the system, the 9 other state agencies with law enforcement responsibilities, as well as 11 college campus police departments were included under a pilot program. This gives a total of 583 law enforcement agencies reporting.

In the interest of satisfying not only a national, but also a state need for uniformity, completeness and accuracy in crime statistics, every report submitted under the system is prepared in triplicate by the contributor. One copy is retained by the contributor. The remaining copies are submitted to the State Police Uniform Crime Reporting Unit. A copy is forwarded to the Federal Bureau of Investigation for inclusion in the National Uniform Crime Reporting Program.

METHOD

Reported offenses are related to the municipality in which they occur rather than to the agency which may investigate, arrest or otherwise in some manner, dispose of the case. The clearance, in every case, is attributed to the municipality in which the offense occurred, even though the arresting agency may not be the department originally reporting the offense. Each contributing agency is responsible for compiling its own reports. The Uniform Crime Reporting Guide, which was revised during 1977, has been distributed to all contributors. It outlines reporting procedures in detail and is complete to the extent of providing examples and illustrations. Field Representatives provide additional instruction and clarification when required.

Municipal law enforcement agencies report the number of known offenses according to the following categories: (1) Homicide, (Murder and Manslaughter), (2) Forcible Rape, (3) Robbery, (4) Aggravated Assault, (5) Burglary, (6) Larceny-Theft, (7) Motor Vehicle Theft, and (8) Arson.

This count is determined from a record of all criminal complaints received by the police from victims or other sources, or discovered by the police during routine operations. Complaints determined by the police investigation to be unfounded are eliminated from this count. The number of "offenses known" in each crime category is reported without regard to whether anyone is arrested, stolen property is recovered, local prosecutive policy, or any other consideration. Municipal law enforcement agencies also report the total number of these crimes cleared by arrest. A separate category is made for crimes cleared by the arrest of persons under 18 years of age. Certain other analytical data pertaining to specific crime categories are also reported, i.e., total adult and juvenile arrests made during the month. Police killed or assaulted information is also collected by month.

Other monthly report forms contain data such as the number of persons arrested for all criminal offenses with respect to age, sex, and race of the offender. Police employee data is submitted on an annual basis.

In summary, "Crime in New Jersey" reflects the compilation of the eight serious "offenses known to police," arrests of persons under 18 years of age and 18 years of age and over. This data is then related to the State of New Jersey, by population groups, character, individual counties, and municipalities.

VERIFICATION PROCESSES

An obvious concern in the collection of crime statistics from 583 law enforcement agencies throughout the state is the uniformity of data received. Program aids such as guides and instructions do not necessarily guarantee the accuracy and correctness of the reports submitted by the contributors; additional controls are therefore necessary.

Each report received by the Uniform Crime Reporting Unit is recorded and examined for mathematical accuracy and, possibly more important, for reasonableness as to interpretation of offense classifications. Fluctuations from levels established through previous reports submitted by the contributor become suspect of inquiry as to reasons for variations. Improper classification, changes in reporting procedures or actual change are identified in this manner. Errors of a minor nature are corrected by direct telephone contact withthe contributors, while all other errors are resolved through a personal visit by a Field Representative to the reporting agency. These personal contacts are necessary for sustaining the accuracy of the system. Field Representatives are engaged in a constant effort to provide adequate, meaningful training in order to provide a vital link between the program and the reporter.

CLASSIFICATION OF OFFENSES

Uniformity in reporting under the New Jersey system is based upon the proper classification of offenses by police. The adoption of the federal system of reporting included the utilization of the offense classifications of that system. Law enforcement in this state has made accurate application of those classifications in the reports submitted to the program.

In view of the need for compatibility with the federal system, "offenses" under the program are not distinguished by designation of "high misdemeanors," violations of the Disorderly Persons Act or Municipal Ordinances. The explanation of offense classifications may vary slightly with those employed at the federal level because the language used is familiar to law enforcement in this state. However, the major categories of offense classification remain the same as those employed nationally.

PROFILE OF NEW JERSEY

New Jersey is situated between the major industrial markets of New York and Philadelphia and can be classified as the "Crossroads of the East." The geographic location of the state has been a major factor in its growth and development. The many miles of super-expressway facilities within the state connect New Jersey directly with the neighboring states of New York, Pennsylvania, and Delaware. Additionally, New Jersey as a corridor state, accommodates large volumes of traffic from both the eastern and western part of the United States.

The state is politically comprised of 21 counties which contain 567 incorporated municipalities. Nationally, New Jersey, although 46th in size, ranks ninth in population and first as the most densely populated state in the country. In addition to this density of 978.7 persons per square mile, New Jersey still has many miles of rural areas and sparsely settled communities. The areas of density show a heavy concentraion around the major urban centers and those areas most accessible for commuting.

1980 Area In Sq. Miles	1970 Census Population	1980 Prel. Census Population	1980/1970 Percent Change	1970 Density Per Sq. Mile	1980 Preliminary Density Per Sq. Mile
7,495.73	7,168,164	7,335,808	+ 2.3	956.6	978.7

STATE, COUNTY AND MUNICIPAL PROFILES

The presentation of state, county and municipal profiles in this section is offered for the purpose of projecting, for the consideration of the reader, a group of recognizable factors which may affect the amount and type of crime that occurs from community to community. Selection of the areas of information to be related to individual municipalities was based on the immediacy and completeness of data available.

Population statistics presented here, and throughout this publication, were obtained from the Department of Labor & Industry, Division of Planning and Research, Office of Demographic and Economic Analysis. Preliminary 1980 census counts of population were used in this publication.

Character of municipalities by urban, suburban and rural classifications, and square miles, were compiled by the Department of Community Affairs, Division of State and Regional Planning, Bureau of Statewide Planning. Following is a list of categories used and a description of each category.

• URBAN CENTER	Densely populated with extensive development.
• URBAN-SUBURBAN	Near an urban center but not as extremely developed and more residential areas.
• URBAN CENTER RURAL	Densely populated core area but surrounded by rural areas.
• SUBURBAN	Predominately single family residential, within a short distance of an urban area.
• SUBURBAN RURAL	Rapidly developing area but still large tracts of open land available for development.
• RURAL	Scattered small communities and isolated single family dwellings.
• RURAL CENTER	High density core area with surrounding municipalities rural.
• RURAL CENTER-RURAL	Small developed core area surrounded by rural areas.

Certain other socio-economic factors present in varying degrees in all communities may have an influence on resulting crime rates. Obvious difficulties in the identification, documentation and measurement of these factors, however, precluded their application in this report.

Those factors presented were listed to affirm their existence within the county and community and to provide a base for consideration in the evaluation of that community's crime experience.

CRIME FACTORS

Statistics gathered under the Uniform Crime Reporting Program are submitted by the law enforcement agencies of New Jersey and project a statewide view of crime. Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

Crime, as an outgrowth of society, remains a social problem of grave concern and the police are limited in their role to its suppression and detection. The fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America. They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the criminal justice system; the criminal justice system is only one part of the government; and the government is only one part of society. Insofar as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case by case operations, one criminal or one crime at a time. Enumerated below are some of the factors which, by type and volume, will affect the crime that occurs from place to place.

- Density and size of the community population and the metropolitan area of which it is a part.
- Composition of the population with reference particularly to age, sex, and race.
- Economic status and mores of the population.
- Relative stability of population, including commuter, seasonal, and other transient types.
- Climate.
- Cultural conditions, such as educational, recreational, and religious characteristics.
- Effective strength of the police force.
- Administrative and investigative emphases of law enforcement.
- Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional, and probational).
- Crime reporting practices of the general citizenry.
- Attitudes of the public toward law enforcement problems.
- The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.
- Cooperation of adjoining and overlapping police agencies.

Crime rates in this publication are based on the stable population of the municipality. Seasonal population figures are too inaccurate and fluctuating to be used as a measurement for determining crime rates. Municipalities with high seasonal populations may indicate a higher crime rate per one thousand than may be normal for a municipality their size.

The Challenge of Crime in a Free Society, Nicholas deB. Katzenbach, Chairman (Washington, D.C.: U.S. Government Printing Office, 1967) p. 92.

THE POLICE POINT OF VIEW

As in the past, the New Jersey State Police Uniform Crime Reporting Unit has been surveying police agencies of the state, attempting to ascertain their viewpoint concerning contributing crime factors. Increased abuse of drugs and alcohol, insufficient manpower, lenient courts, and seasonal population changes, are some of the general type responses received from many of the police agencies.

Many of the specific type responses concerning the increase or decrease of a particular crime have been documented in earlier publications of "Crime in New Jersey," but these viewpoints are still valid and appear again below.

ROBBERY:

Increases

- Availability of new interstate roadways that provide a swift avenue to-and-from communities previously difficult to reach. This factor has also shown a relationship with burglaries in suburban and rural areas.

Decreases

- The addition of highly visible scooter and foot patrols in high density crime areas; selective enforcement; stake out squads are assigned to target areas using analytical information derived by studying past robbery occurrences.

BURGLARY:

Increases

- Husband and wife both working; leaving homes more frequently unoccupied during the daylight hours.
- High truancy rates at Junior High Schools and High Schools has also been noted as a contributor to daytime burglary increases.
- Unoccupied vacation homes being entered during the off-season. Many police administrators cite insufficient manpower to properly patrol these areas as a contributing factor.
- Little or no security measures initiated by the average citizen to protect his own property.
- Juvenile recidivists receiving no detention after they are arrested numerous times for being involved in burglaries.
- Considerable increases in the value of gold and silver make the crime of Burglary even more attractive than in past years.

  Note: Stolen property values (jewelry and precious metals) increased 109 percent over the previous year and historically have a low recovery rate, i.e., 4 percent in 1980.

Decreases

- Crime prevention programs are being stressed in many communities as a means of decreasing crime. Programs as "Neighborhood Watch" and "Operation I.D." have proven to be successful as a deterrent to burglaries, as well as other crimes.
- Increased patrols during probable times and location of residential and commercial burglaries.

LARCENY:

Increases

- Larceny of auto parts, and property contained inside motor vehicles is the most common type of larceny being reported to police in New Jersey. This is attributed to:

  —Shortage of police manpower to adequately patrol parking lot areas.

  —A lack of security provided by the various shopping malls in their own parking areas.

  —Availability and visibility of the articles left in the vehicles.
- Shoplifting is a larceny that police have little or no control over. Store security forces are under the control of the store administration, and their arrest policies vary from strict enforcement, arrest and prosecution, to only a warning. Policy change has been directed toward prosecuting the offenders rather than warning them, causing to some extent, an increase in the number of shoplifting offenses reported to police.

Decreases

- Surveillance of shopping mall parking areas, utilizing motor scooters, bicycles and plain clothes foot patrols.
- Use of additional or improved lighting to prevent criminal acts from occurring in parking areas.
- Public awareness programs contribute to the decrease in larceny from parked vehicles. These types of programs also help reduce bicycle thefts.
- Larceny of bicycles has decreased as a result of Safety and Security programs implemented by police in the various schools. This includes the registration and marking of bicycles with special numbers.

MOTOR VEHICLE THEFT:

Increases

- The tremendous replacement cost of auto parts has contributed significantly to the increase in Motor Vehicle Thefts in 1980. The vehicle's value has nearly doubled in recent years, due to the high replacement cost of parts and accessories.

  Note: Stolen motor vehicle values increased 10 percent over 1979, conversely, only 60 percent of the stolen motor vehicles were recovered in the UCR Program, probably due in part to "theft for parts," chop-shops," etc.

STATEWIDE CRIME SUMMARY — 1980

OFFENSES

- 470,169 Index offenses were reported in New Jersey during the year 1980, a 10 percent increase over 1979.
- Violent crime increased 21 percent.
- Nonviolent crime increased 9 percent.
- $361 million of property was stolen during 1980.
- Robbery was the motive in 24 percent of all murders committed.
- Larceny-theft and Burglary accounted for 79 percent of the state's serious crime.
- During the five year period 1976-1980, Rural crime increased 42 percent, Urban crime increased 18 percent and Suburban crime increased 16 percent.

CLEARANCES

- Law enforcement agencies solved 17 percent of all Index offenses during 1980.
- Persons under 18 years of age were responsible for 32 percent of the solved Index offenses in 1980.

ARRESTS

- 351,959 persons were arrested in 1980, a 5% increase over 1979.
- Adults represented 75 percent of all Violent crime arrests.
- Juveniles accounted for 46 percent of the Nonviolent crime arrests.
- Four of every 10 persons arrested for Robbery were under 18 years of age.
- Five of every 10 persons arrested for Burglary were under 18 years of age.
- Four of 10 persons arrested for Larceny was under 18 years of age.
- Five of every 10 persons arrested for Motor Vehicle Theft were under 18 years of age.
- Six of every 10 persons arrested for Arson were under 18 years of age.
- Persons under 30 years of age represented 89 percent of all Drug Abuse violations.

POLICE OFFICERS KILLED AND ASSAULTED

- One police officer was killed in the line of duty in 1980.
- 4,279 police officers were assaulted while in the performance of duty in 1980.
- Almost one of every four Municipal police officers in New Jersey was assaulted during the year 1980.

CRIME IN NEW JERSEY
and
CRIME IN THE UNITED STATES
1979/1980

CRIME INDEX

- New Jersey and the United States increased 10%, while the Northeastern states region increased 8 percent.

VIOLENT CRIME

- New Jersey increased 21 percent, the United States increased 13% and the Northeastern region increased 12 percent.

NONVIOLENT CRIME

- New Jersey and the United States increased 9% and the Northeastern states increased eight percent.

STATEWIDE CRIME AND ARREST DATA

1980 Total Crime Index Summary Analysis

VOLUME/RATE

- There were 470,169 Index offenses reported to law enforcement agencies of New Jersey during 1980, a 10 percent increase when compared to 1979.
- The crime rate of the State of New Jersey was established at 64.1 victims per Index Offense, for every 1,000 permanent inhabitants.
- Example:
  64.1 Crimes per 1,000 inhabitants.
  640.9 Crimes per 10,000 inhabitants.
  6,409.2 Crimes per 100,000 inhabitants.

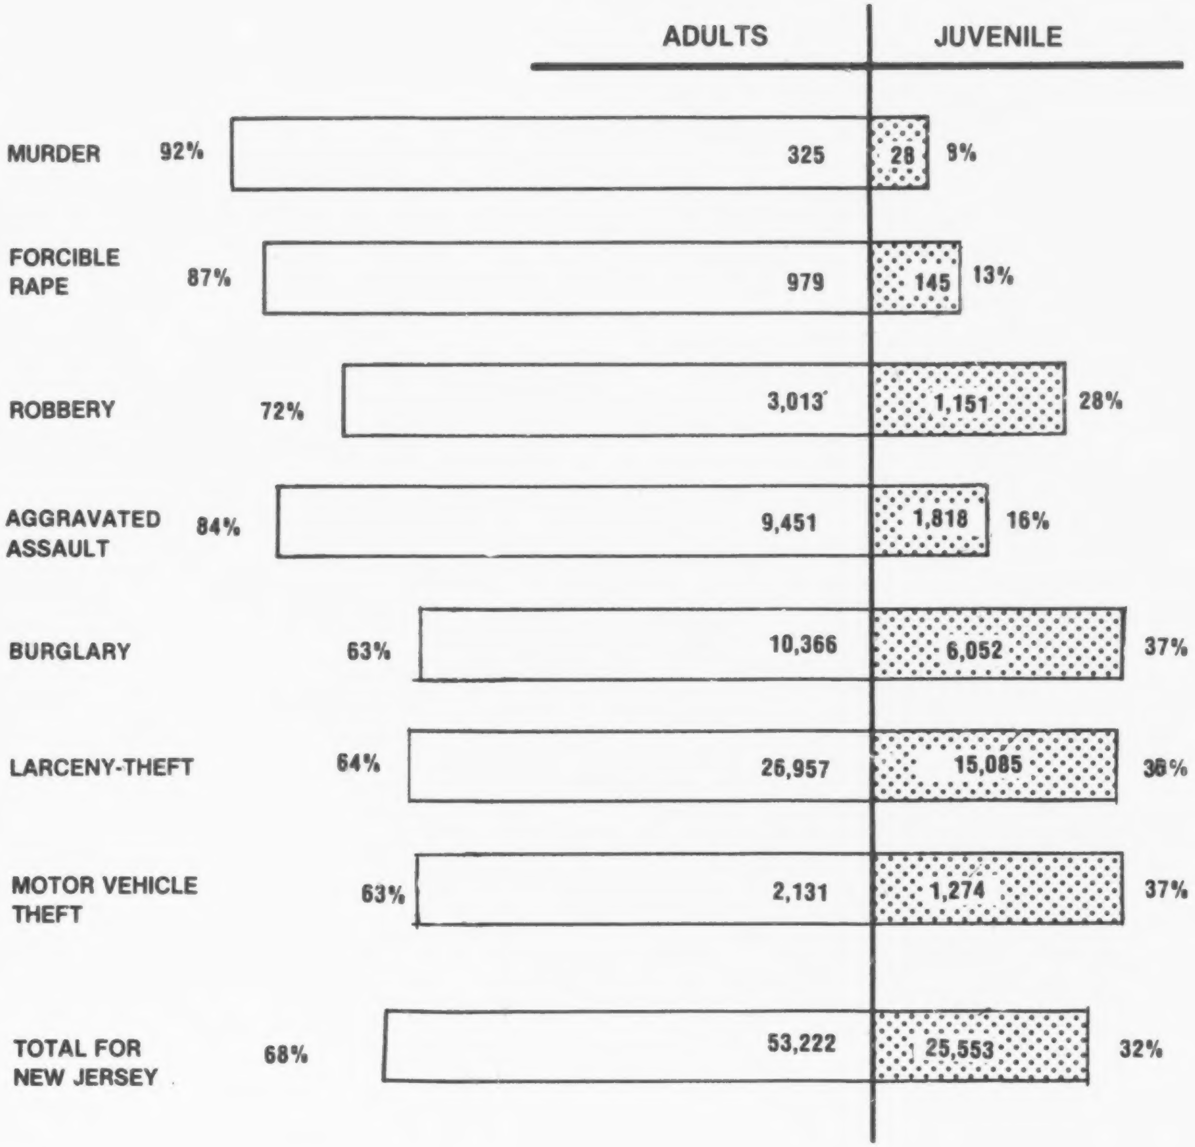
	1980	**360,894,322**	**97,516,126**	**27.0**

ARRESTS/CLEARANCES

- A total of 84,371 persons were arrested for serious Crime Index offenses, representing an 8 percent increase over 1979.
- Crime Index arrests accounted for 24 percent of the total arrests during 1980.
- Adult Index arrests increased 16 percent and registered a 58 percent involvement. Juvenile Index arrests decreased one percent, and accounted for 42 percent of the Index arrests.
- Males accounted for 81 percent, and females 19 percent of persons arrested for Index offenses.
- 59 percent of all persons arrested for Crime Index offenses were White, 41 percent were Negro. (Less than ½ of one percent were of other races).
- Seventeen percent of all Index offenses were cleared during 1980. Persons under 18 years of age represented 32 percent of those cases solved.

PERCENT AND NUMBER OF INDEX OFFENSES CLEARED BY ARREST OF ADULTS AND JUVENILES

1980



1980 VIOLENT CRIME SUMMARY ANALYSIS

VOLUME/RATE

- There were 44,380 Violent Crimes reported in calendar year 1980,resulting in a 21 percent increase over 1979.
- Violent crimes accounted for 9 percent of the total Crime Index.
- The Violent Crime Rate was established at 6.0 victims for every 1,000 inhabitants of New Jersey.

TREND

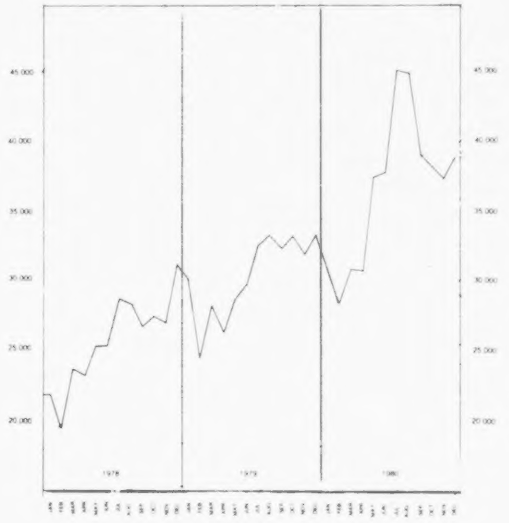
Year	Number of Offenses	Rate per 1,000 Population
1979	36,560	5.0
1980	44,380	6.0
Percent Change	+ 21 %	+ 20 %

- July recorded the highest number of Violent Crimes with 4,535 offenses.
- The total value of property stolen during the commission of Violent Crimes was $14.3 million in 1980.

ARRESTS/CLEARANCES

- A total of 17,223 persons were arrested for violent crime offenses, a 17 percent increase over 1979.
- Violent crime arrests accounted for 20 percent of the Index arrests and 5 percent of the total arrests for 1980.
- Adult arrests for violent crime increased 19 percent, and juvenile violent crime arrests increased 12 percent.
- Adults accounted for 75 percent of the violent crime arrests and juveniles the remaining 25 percent.
- Males were responsible for 91 percent and females 9 percent of persons arrested for violent crime offenses.
- Blacks accounted for 53 percent & white 47 percent of the violent crime arrests in 1980 (less than one half of one percent were other races).
- Thirty-eight percent of all Violent crimes were solved during 1980. Juveniles accounted for 19 percent of all cases cleared.

Violent Crime By Month 1978-1979-1980



1980 NONVIOLENT CRIME SUMMARY ANALYSIS

VOLUME/RATE

- There were 425,789 Nonviolent Crimes reported during 1980, a 9 percent increase when compared to 1979.
- Nonviolent crimes accounted for 91 percent of the total Crime Index.
- Additional analysis reveals that Burglary and Larceny accounted for 79 percent of the total Crime Index during 1980.
- The Nonviolent Crime Rate was established at 58.1 victims for every 1,000 inhabitants of New Jersey.

TREND

Year	Number of Offenses	Rate per 1,000 Population
1979	389,330	53.0
1980	425.789	58.1
Percent Change	+ 9%	+ 10%

- August, with 42,857 offenses, recorded the highest incidence of Nonviolent crimes during 1980.
- The total value of property stolen during the commission of Nonviolent crimes amounted to $346.6 million dollars.

ARRESTS/CLEARANCES

- A total of 67,083 persons were arrested for Nonviolent crimes, a 6 percent increase over 1979.
- Nonviolent crime arrests accounted for 80 percent of the Index arrests and 19 percent of the total arrests reflected during 1980.
- Juveniles were responsible for 46 percent of the Nonviolent crime arrests and adults 54 percent.
- Adult Nonviolent crime arrests increased 16 percent, while juvenile arrests decreased 3 percent.
- Males represented 80 percent, and females 20 percent of persons arrested for the Nonviolent crimes against property.
- Sixty-two percent of all persons arrested for Nonviolent crimes were white, 38 percent were negro (less than ½ of one percent were other races).
- Fifteen percent of all Nonviolent crimes reported during 1980 were solved, and 36 percent of those solved cases were cleared by the arrest of juveniles.

MURDER

Murder is defined as the unlawful killing of a human being with malice aforethought. Any death due to a fight, argument, quarrel, assault, or commission of a crime is included. This Index offense is counted by police on the basis of their investigation without regard to findings of a court, jury or the decision of a prosecutor. Attempts to kill and assaults to kill are scored as aggravated assaults and not as murder. Suicides, accidental deaths, and justifiable homicides are not counted, nor reflected in the murder classification

1980 SUMMARY ANALYSIS

VOLUME/RATE

- There were 505 murders reported by the law enforcement agencies of the state in 1980, a 5 percent increase over the previous year.
- Murders accounted for one-tenth of one percent of the reported Index offenses.
- The murder rate remained the same at .1 victims per 1,000 inhabitants.

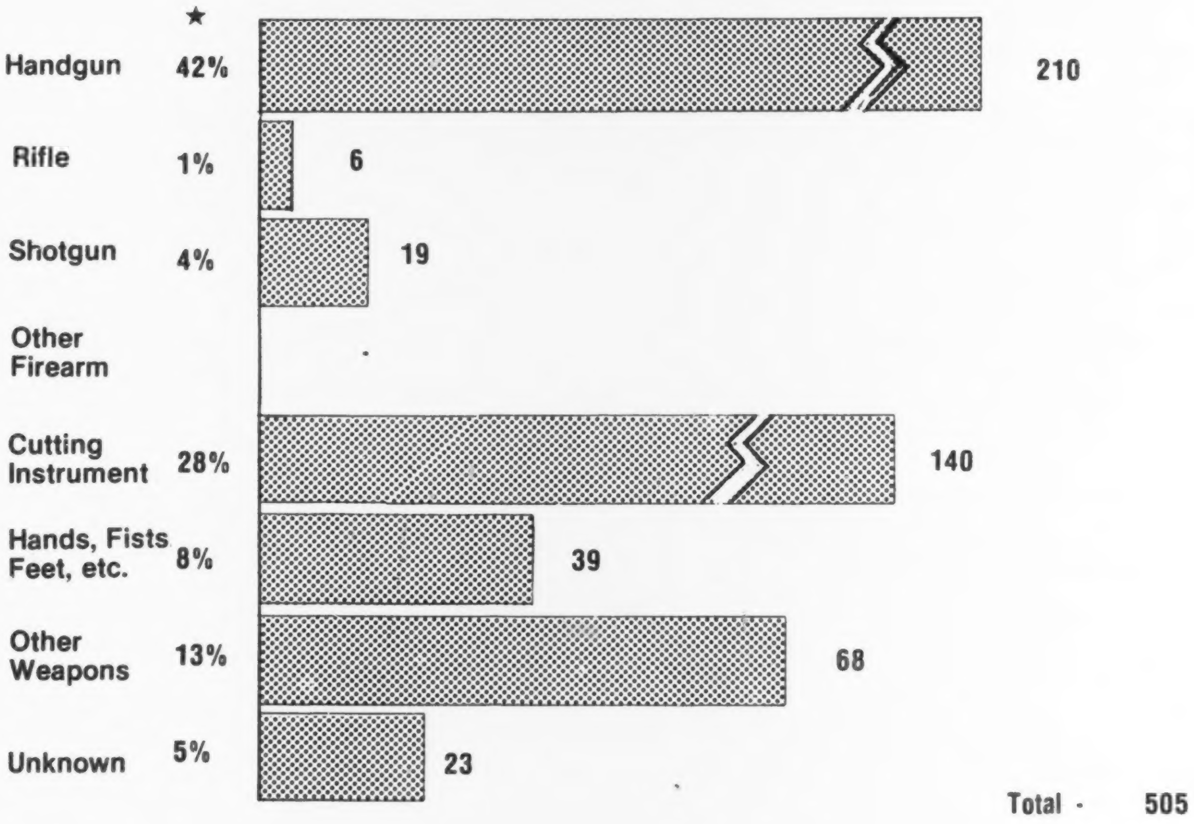
PERCENT DISTRIBUTION	—	100.0	74.3	25.7	48.7	50.9	—	0.4

- August and June recorded the highest number of murders, with 59 and 52 respectively, February was the lowest reported with twenty-nine offenses (29).
- Murder by day of week disclosed Saturday was the highest day of occurrence, with 91 offenses.
- The age group 20-34 accounted for 40 percent of all murder victims.
- Fifty-one percent of murder victims were negro, 49 percent were white, and 74 percent of the victims were male.

- Firearms were used in 47 percent of all reported murders. Cutting or stabbing instruments accounted for 28 percent; other weapons, i.e., clubs, hammers, poison, arson, etc., accounted for 13 percent, and physical force, such as hands, fists and feet were used in the remaining 8 percent of the murder offenses.

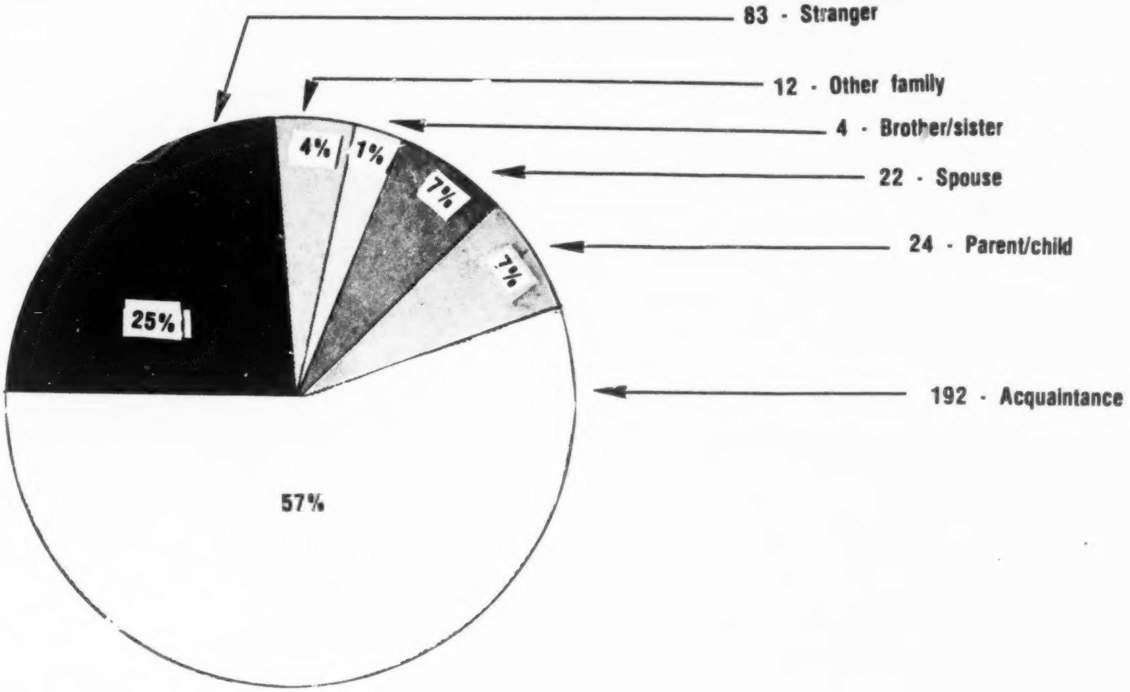
MURDER — Distribution by Type of Weapon



*Due to rounding percentages may not add to 100%.

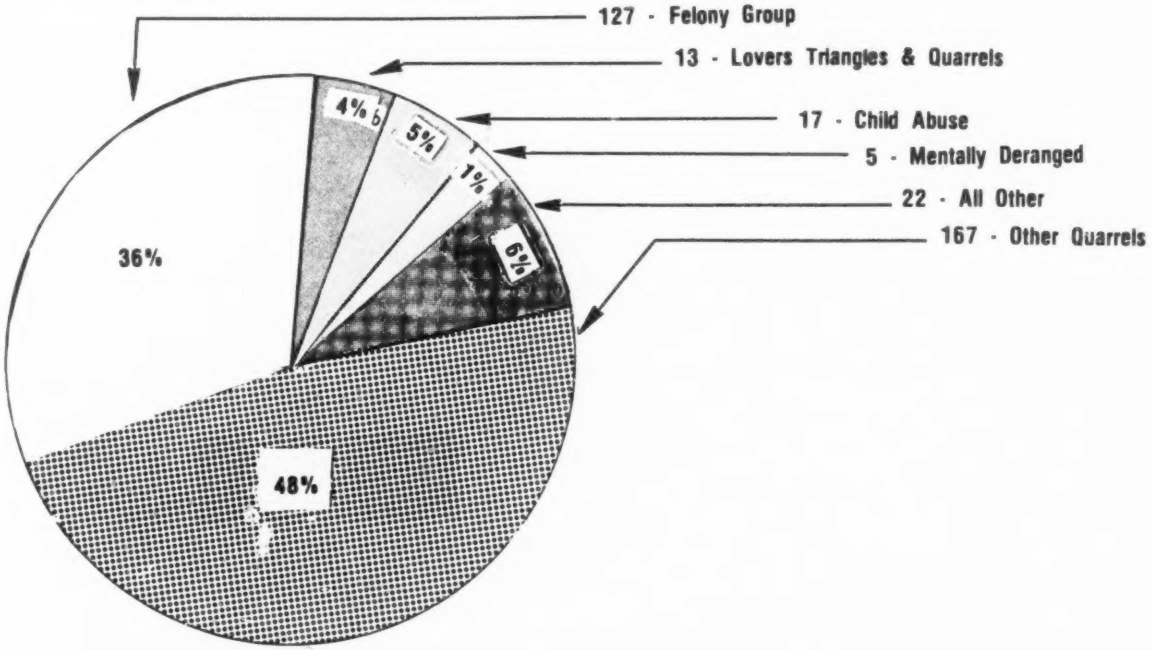
- Forty-three percent of the reported murders occurred in private residences, 33 percent on highways or streets, and 7 percent in commercial houses.
- Seventy-five percent of the known murder victims were either acquainted or related to their assailant.
- Seven percent of the known murders were the result of spouse killing spouse, and 16 percent of the perpetrators were identified as members of the immediate family.

1980 RELATIONSHIP OF VICTIM TO OFFENDER (1)



(1) Additionally there were 168 murders in which the relationship could not be determined. Percent distribution may not add to 100% due to rounding.

1980 — KNOWN MURDER CIRCUMSTANCES (1)



(1) Additionally there were 154 murders in which the circumstances could not be determined.

- Altercations and quarrels between victims and perpetrators continue to account for most murders, 48 percent this year.
- Felony murders account for 36 percent of all reported murders, with robbery identified as the motive in 24 percent of these offenses. This is the highest since 1974.
- The total value of property stolen resulting from all murders, amounts to $29,925.00

ARRESTS/CLEARANCES

- A total of 434 persons were arrested for murder during 1980, a 9 percent increase over 1979.
- Adult murder arrests increased 5 percent (from 358 to 376), and juvenile arrests increased 45 percent (from 40 to 58).
- The age group 18-22 accounted for 32 percent of persons arrested for murder. Males accounted for 90 percent and females accounted for 10 percent of all persons arrested.
- Sixty percent of persons arrested for murder were negro and 40 percent were white.
- 353 of the 505 murders were solved during the year 1980 reflecting a 70 percent clearance rate.
- The juvenile clearance rate for murder was 8 percent of all cases solved.

MURDER SCENARIO

A negro male between 25 and 29 years of age, living in an Urban area, is shot on a Saturday at his place of residence with a handgun by a friend or a relative, during an argument. The offender, a negro male, between the age of 18-22 has a 70 percent chance of being arrested.

FORCIBLE RAPE

Forcible Rape is defined as the carnal knowledge of a female forcibly and against her will. All assaults and attempts to tape are counted, but carnal abuse, rape without force (statutory rape) and other sex offenses are not included.

1980 SUMMARY ANALYSIS

VOLUME/RATE

- There were 2,260 forcible rapes reported in New Jersey during 1980. This represents a 13 percent increase over 1979.
- Forcible rape accounted for one-half of one percent of the total crime Index and 5 percent of all violent crimes.
- For every 1,000 persons in the state, there were .3 forcible rape victims. When calculated on the estimated 1978 female population, the forcible rape rate increases to .6 per 1,000 females.
- Seventy-six percent of the rapes were forcible; the remaining 24 percent were assaults or attempts to rape.

TREND

Year	Number of Offenses	Rate per 1,000 Population
1979	2,004	0.3
1980	2,260	0.3
Percent Change	+ 13%	N/C

- The total value of property stolen during the commission of forcible rapes amounted to $46,232.00.

ARRESTS/CLEARANCES

- A total of 1,168 persons were arrested during 1980, a 14 percent increase over 1979.
- Adult forcible rape arrests increased 13 percent, while juvenile arrests increased 18 percent over 1979.
- Fifty-three percent of all persons arrested for forcible rape were under the age of 25.
- Fifty-six percent of the arrested perpetrators were negro, 43 percent were white and one percent were other races.
- Fifty percent of all forcible rape cases were solved during 1980. Persons under 18 accounted for 13 percent of those cases cleared.

FORCIBLE RAPE SCENARIO

A woman living in an Urban area is forcibly raped by a negro male between the age of 18 to 21. There is a one in two probability that the offender will be apprehended.

ROBBERY

Robbery is defined as the felonious and forcible taking of the property of another, against his will, by violence or by putting his in fear. The element of personal confrontation is always present in this crime. Under the program, all assaults or attempts to rob are included. Effective January 1, 1974, the robbery subheadings were changed from armed and strong arm, to robbery by firearm, knife or cutting instruments, other dangerous weapon and strong arm (hands, fists, feet, etc.)

1980 SUMMARY ANALYSIS

VOLUME/RATE

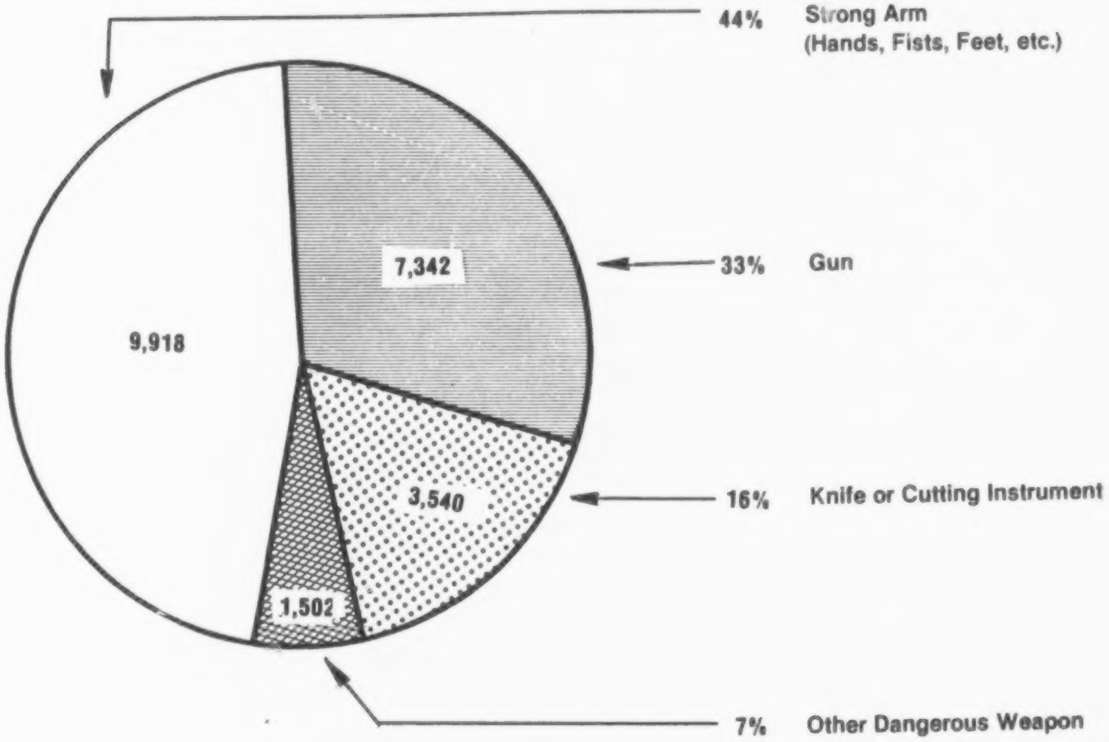
- There were 22,302 robberies reported during 1980, a 22 percent increase over 1979. This offense has steadily increased since 1977.
- Robbery accounted for 5 percent of the total Crime Index and 50 percent of all violent crimes.
- The robbery rate was 3.0 victims per 1,000 population.

TREND

Year	Number of Offenses	Rate per 1,000 Population
1979	18,265	2.5
1980	22,302	3.0
Percent Change	+ 22%	+ 20%

- Fifty-six percent of the robberies were committed by an armed perpetrator, and the remaining 44 percent were committed by the use of strong-arm tactics.

ROBBERY WEAPONS USED 1980



- Street robberies accounted for 65 percent of all reported robberies, and showed a 26 percent increase over 1979.
- Bank robberies, which accounted for one percent of all robberies, increased 5 percent in 1980 (from 205 to 216).
- Total value of property stolen during the commission of all robberies amounted to $14,265,884.00.

ARRESTS/CLEARANCES

- A total of 5,437 persons were arrested for robbery during 1980, a 17 percent increase over 1979.
- Four of every ten persons arrested for robbery were under 18 years of age.
- Adult robbery arrests increased 20 percent, while the juveniles registered an 11 percent increase. Males accounted for 95 percent and females 5 percent of all persons arrested for robbery in 1980.
- Sixty-nine percent of all persons arrested for robbery were negro, 30 percent were white and one percent were of other races.
- There were 4,164 robbery cases solved during 1980 for a clearance rate of 19 percent. Twenty-eight percent of those cases solved were cleared by the arrest of juveniles.

ROBBERY SCENARIO

The victim is robbed of $640 worth of property by strong arm tactics on an Urban street. The person committing the offense will be a negro male, age 17 and is apprehended in one of every five cases.

AGGRAVATED ASSAULT

Aggravated Assault, as defined under the New Jersey Uniform Crime Reporting System, is an attempt to offer, with unlawful force or violence, to do serious physical injury to another. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could result in serious personal injury if the crime was successfully completed.

1980 SUMMARY ANALYSIS

VOLUME/RATE

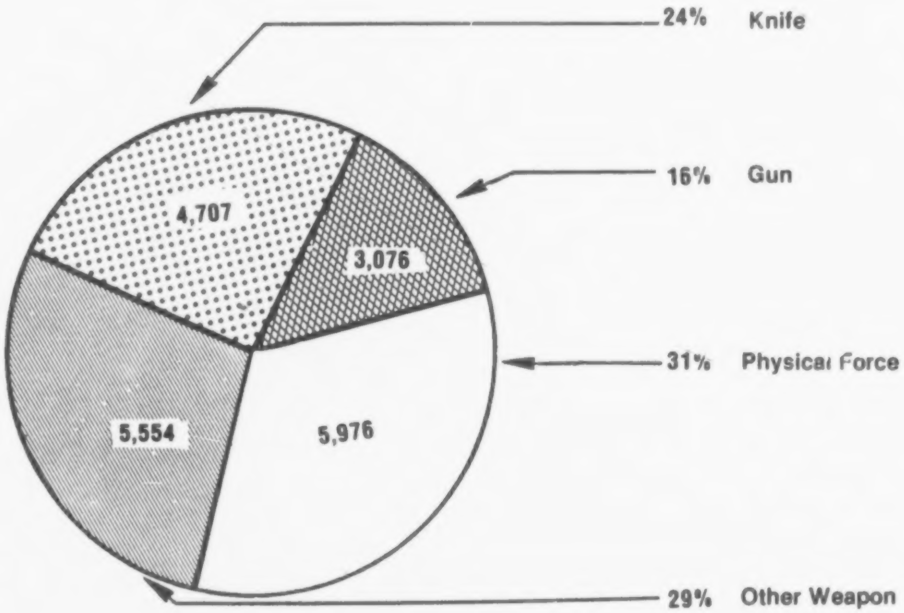
- There were 19,313 aggravated assaults reported during calendar year 1980, a 22 percent increase over the previous year. This is the highest number of assaults ever recorded and has steadily increased since 1970.
- Aggravated assaults accounted for 4 percent of the total Crime Index and 44 percent of all violent crimes.
- For every 1,000 persons in the state, 2.6 were victims of this crime.

TREND

Year	Number of Offenses	Rate per 1,000 Population
1979	15,809	2.2
1980	19,313	2.6
Percent Change	+22%	+18%

- Physical Force (i.e., hands, fists and feet) was used in 31 percent and other dangerous weapons (i.e., clubs, bricks, tire irons, etc.) were used in 29 percent of all reported aggravated assaults.

AGGRAVATED ASSAULT WEAPONS USED
1980



ARRESTS/CLEARANCES

- A total of 10,184 persons were arrested for Aggravated Assault during 1980, an 18 percent increase when compared to 1979.
- Juvenile arrests increased 12 percent, and adult arrests increased 20 percent. Males accounted for 89 percent and females 11 percent of all Aggravated Assault arrests.
- Fifty-six percent of persons arrested for Aggravated Assault were white, 43 percent negro and the remaining one percent were other races.
- Fifty-eight percent of all Aggravated Assault cases reported in 1980 were solved. Juveniles accounted for 16 percent of the cleared cases.

AGGRAVATED ASSAULT SCENARIO

A person is assaulted physically (i.e., hands, fists and feet) by a white male 17. The actor will be identified and apprehended in three out of five cases.

BURGLARY

Under this program, Burglary is defined as an unlawful entry or attempted entry of any structure to commit a felony or larceny. Data collection for this offense is further categorized as forcible entry, unlawful entry (where no force is used) and attempted forcible entry.

1980 SUMMARY ANALYSIS

VOLUME/RATE

- There were 137,956 Burglaries reported during 1980 for an 18 percent increase over 1979. This is the highest volume recorded since the inception of the UCR System in 1967.
- Burglary accounted for 29 percent of the total Crime Index and 32 percent of all nonviolent crimes.
- The victimization rate for Burglary was 19 victims for every 1,000 inhabitants, an 18 percent rise when compared to 1979.

TREND

Year	Number of Offenses	Rate per 1,000 Population

- During 1980, 77 percent of all Burglaries involved forcible entry, 12 percent were unlawful entry where no force was used, and the remaining 11 percent were attempts to forcibly enter.
- Residences were burglary targets in 69 of every 100 offenses. Fifty-eight percent of the known residences burglarized were committed during the daytime.
- The total value of property stolen for all reported burglaries amounted to $126.4 million for an average dollar loss of $842.
- The average loss of residential burglaries was $1,030, while nonresidential was $654.

ARRESTS/CLEARANCES

- Arrests for Burglary increased five percent to 18,207 persons arrested in 1980.
- Adult arrests increased 18 percent while juvenile arrests decreased 6 percent.
- Fifty percent of all arrests for Burglary were under 18 years of age.
- Sixty-five percent of all Burglary arrests were white, 35 percent negro. (Less than one half of one percent were of other races).
- Twelve percent of all reported burglaries were solved, and 37 percent of those cases solved were cleared by the arrest of juveniles.

BURGLARY SCENARIO

A residential dwelling is forcibly entered during daytime hours and $1,030 of property is stolen. The offender, a white teenage male, has a one in nine chance of being apprehended and prosecuted.

LARCENY-THEFT

The definition of Larceny-Theft, as provided under this program, is the taking of the property of another with intent to deprive him of ownership. All larcenies and thefts resulting from pocket-picking, purse-snatching, shoplifting, larcenies from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc., are included here. Embezzlement, unlawful conversions, larceny by bailee, frauds or bad check cases are not included.

1980 SUMMARY ANALYSIS

VOLUME/RATE

- There were 234,252 Larcenies reported to New Jersey law enforcement agencies, reflecting a 6 percent increase over 1979.
- Larceny accounted for 50 percent of the total Crime Index and 55 percent of all nonviolent crimes.
- Larceny victimization rate of 32 for every 1,000 persons increased 6 percent over 1979.

TREND

Year	Number of Offenses	Rate per 1,000 Population
1979	221,080	30.1
1980	234,304	31.9
Percent Change	+ 6%	+ 6%

- Volumewise, Larcenies from Motor Vehicles, (clothing, luggage, etc.) and Larcenies of Motor Vehicle Parts and Accessories, (car radios, gasoline, etc.) accounted for 37 percent of all Larcenies reported.
- Purse-snatching, and Larceny from Auto, registered the most significant percentage increase, each recording a 13 percent rise.

MOTOR VEHICLE THEFT

In Uniform Crime Reporting, Motor Vehicle Theft includes all thefts and attempted thefts of a motor vehicle. This includes the theft or attempted theft of a motor vehicle which is defined as a self-propelled vehicle that runs on the surface and not on rails. This definition excludes taking a motor vehicle for temporary use, such as a family situation, or unauthorized use by others having lawful access to the vehicle. The motor vehicle theft category includes the subheadings of autos, trucks and buses, and other vehicles (motorcycles, mo-peds, etc.).

VOLUME/RATE

- There were 53,581 motor vehicles stolen in 1980, a 5 percent increase when compared to 1979. This represents the highest number of Motor Vehicle Thefts reported and continues the upward trend from 1976.
- Motor Vehicle Theft accounted for 11 percent of the total Crime Index and 13 percent of the nonviolent crimes.
- The Motor Vehicle Theft rate increased to 7.3 victims per 1,000 population, which is a 6 percent increase over 1979.

TREND

Year	Number of Offenses	Rate per 1,000 Population
1979	51,006	6.9
1980	53,581	7.3

ARSON

Arson is defined by the New Jersey Uniform Crime Reporting Program as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

Only fires determined through investigation to have been willfully or maliciously set are classified as arsons. Fires of suspicious or unknown origins are excluded.

BACKGROUND

Arson was designated a UCR Part I Crime Index offense by congressional mandate in October, 1978.

Since the Crime Index is based on actual offenses known to law enforcement, it was determined that only data on fires established through investigation to have been willfully or maliciously set, including attempts, were to be counted. Unknown origin or suspicious fires were to be excluded from the offense counts until authorities definitely determined them to be arsons.

It also was recognized that Arson offenses frequently occur in conjunction with other Index crimes, i.e., burglary. To ensure that all arsons are reported to the System, an exclusion to the Uniform Crime Reporting hierarchy procedure was established. Regardless of their occurrence with other crimes, all arsons were to be reported.

VOLUME/RATE

- There were 5,861 Arsons reported in 1980, (this is the first reportable year for arson data).
- The Arson rate is .8 victims per 1,000 population.

TREND

Year	Number of Offenses	Rate per 1,000 Population
1980	5,861	.8

ARRESTS/CLEARANCES

- Arson arrests increased 5 percent, to 879 in 1980.
- Adult arrests increased 10 percent, while juvenile arrests increased 1 percent in 1980.
- Fifty-seven percent of all Arson arrests were under 18 years of age.
- Seventy-seven percent of Arson arrests were white, 23 percent were black (less than one-half of one percent were other races).
- Thirteen percent of all Arsons were solved; 48 percent of those cases solved were cleared by the arrest of juveniles.

ARSON SCENARIO

A residential structure is the target of Arson, with an average loss value of $5,861. The actor, a white teenage male, has a one in eight chance of being apprehended.

- During 1980, 65 percent of the targets of arson were structures, with residential structures accounting for 43 percent and commercial structures accounting for 14 percent of these arsons.
- Mobile property, including motor vehicles, accounted for 16 percent of the reported arsons.
- Other property (crops, timber, etc.) accounted for 19 percent of the arsons reported.
- The total value of property damage due to arson, amounted to over $34.3 million for an average dollar value loss of $5,861.
- The average residential loss was $4,045, while the average loss to Industrial/Commercial structures was $22,590.

SECTION III

STATE AND COUNTY ARREST SUMMARY

1980 TOTAL ARREST SUMMARY ANALYSIS

- There were 351,959 persons arrested for all criminal acts during 1980; a 5 percent increase when compared to 1979.
- There were 48 arrests recorded for every 1,000 persons residing in the state.
- Persons under 21 years of age accounted for 51 percent of all arrests.
- Juvenile arrests in 1980 decreased 3 percent and adult arrests increased 10 percent as compared to 1979.
- Adults were responsible for 66 percent of the total arrests, while persons under the age of 18 were responsible for the remaining 34 percent.
- Males accounted for 83 percent, and females 17 percent of the total persons arrested during the year.
- Of the total persons arrested, 72 percent were white and 28 percent were black.

OFFENSES BY POPULATION GROUPS

The presentation of crime statistics by population groups was made for the purpose of projecting, for consideration, the relative crime experience of communities of varying populations. Although the individual municipalities within the various groups may be geographically separated, their inclusion into a specific group was predicted by the similarity in population with the other municipalities within the group. Municipalities within the same group may differ widely when all factors are considered, but they do share the common bond of population size. The grouping of communities in this manner allows recognition of variances in the crime volumes, rates and clearances between the established groups.

Set forth below are the established municipal groupings as used in this section:

GROUP I

4 Municipalities over 100,000
Total Population - 795,671

GROUP II

17 Municipalities 50,000 to 100,000
Total Population - 1,154,281

GROUP III

44 Municipalities 25,000 to 50,000
Total Population - 1,538,449

GROUP IV

69 Municipalities 15,000 to 25,000
Total Population - 1,356,109

GROUP V

207 Municipalities 5,000 to 15,000
Total Population - 1,897,583

GROUP VI

141 Municipalities 2,000 to 5,000
Total Population - 492,195

GROUP VII

85 Municipalities under 2,000
Total Population - 101,520

CRIME INDEX FOR POPULATION GROUPS - 1980

URBAN—SUBURBAN—RURAL CRIME

5 YEAR COMPARISON
URBAN-SUBURBAN-RURAL
1976 through 1980 Summary Analysis

- During the 5 year period, Rural communities continued to experience the largest Index offenses percentage change, registering an increase of 42 percent.
- Urban municipalities recorded the next highest Index increase advancing 18 percent.
- Suburban communities reported the lowest percentage increase, reflecting a rise of 16 percent.
- Nonviolent crimes increased at a faster rate in Rural municipalities than Suburban or Urban areas.

URBAN
1980 Summary Analysis

- There were 277,556 Index offenses reported in municipalities of Urban character during the year 1980, representing an increase of 14 percent over 1979.
- Fifty-nine percent of all Index crimes occurred in Urban areas; a 3 percent increase compared to 1979.
- Violent crimes increased 24 percent, and accounted for 80 percent of the state's total violent crime.
- Nonviolent crimes rose 13 percent and accounted for 57 percent of the reported nonviolent crime.
- The crime rate increased 15 percent, to 78.9 victims for every 1,000 persons.
- Significant increases were noted in the offenses of Robbery, Aggravated Assault and Burglary.

SUBURBAN
1980 Summary Analysis

- During the year, Index crimes in Suburban areas increased 4 percent, to 158,566 offenses.
- Suburban communities recorded 34 percent of the Index crimes that occurred during the year.
- Violent crime advanced 8 percent, and accounted for 16 percent of the state's total.
- Nonviolent crime increased 4 percent, and accounted for 36 percent of the total reported.
- The crime rate was recorded at 52.6 victims for every 1,000 Suburban inhabitants, an increase of 6 percent over 1979.
- Significant increases were noted in the offenses of Robbery and Burglary.

RURAL
1980 Summary Analysis

- There were 34,047 Index offenses reported in Rural municipalities during the year 1980, an increase of 11 percent when compared to 1979.
- Seven percent of the state's Index crime occurred in Rural areas.
- Violent crime increased 21 percent and accounted for 4 percent of the state's total.
- Nonviolent crimes increased 10 percent, and was responsible for more than 7 percent of the state's total.
- Victimization rate was established at 42.2 persons for each 1,000 inhabitants of Rural areas, an increase of 4 percent over 1979.
- Significant increases were noted in the offenses of Forcible Rape, Robbery, Aggravated Assault and Burglary.

SECTION VI

CRIME IN THE CITIES

CRIME IN THE CITIES

This section will deal with serious crimes reported in the large urban cities of the state. These cities represent twenty (20) percent of the population and historically account for one third of the reported Crime Index of the state.

This analysis involves the latest ten year period (1971-1980) and endeavors to further identify crime trends in these urban areas.

The cities included in this analysis have been categorized as Urban municipalities, (i.e., densely populated with extensive development) by the New Jersey Department of Community Affairs, Division of State and Regional Planning, Bureau of Statewide Planning.

The criteria used in the selection of these cities were (1) To be classified as Urban character and (2) Have a population of 50,000 or more inhabitants.

For further comparative analysis, the Urban cities were subdivided into two distinct groupings. Group number one consisted of the State's six largest Urban centers with populations of 85,000 or over and categorized as the "Major Urban."

The second group included the "Major Urban" and the additional Urban communities with populations of 50,000 or more inhabitants, and referred to as the Urban Municipalities.

MAJOR URBAN

- Camden
- Elizabeth
- Jersey City
- Newark
- Paterson
- Trenton

CRIME IN THE CITIES

SUMMARY

Distribution

- Six major Urban centers—Camden, Newark, Jersey City, Trenton, Paterson and Elizabeth—collectively represent 13 percent of New Jersey's total population. These same Urban centers, during the period 1971 through 1980 accounted for 24 percent of the state's total crime.
- The six centers, from 1971 through 1980, accounted for 51 percent of all Violent crime and 21 percent of the Nonviolent crimes in the entire state.
- The 15 Urban municipalities represent 21 percent of the state's total population.
- For the period 1971 through 1980, these "15" Urban municipalities accounted for 33 percent of New Jersey's total Index, 61 percent of all Violent crime, and 30 percent of the state's Nonviolent crime.
- Nearly 7 out of every 10 robberies reported, occurred in the "Urban 15" cities during this ten year period.

The accompanying Table reflects the percent distribution of major Urban and "'Urban Fifteen" crime within the state for the years 1971-1980.

Percent Change

During this period, New Jersey's Crime Index paralleled the upward trend that was reflected at the national level, recording a 62 percent increase for the years 1971-1980.

Although the crime trends in the "Urban Fifteen"1" did not increase as rapidly as recorded statewide, the increases however, were quite significant.

- Statewide Crime Index spiraled to a 62 percent increase from 1971 through 1980.
- The "Urban 15" registered a 38 percent increase in the Crime Index from 1971-1980.
- The total Crime Index for the six "Major Urban" cities registered a 25 percent increase during the ten year period.
- The state's Violent crime recorded a 68 percent increase during the ten year period.
- Violent crime in the "Urban 15" increased 51 percent and Nonviolent crime was up 36 percent during this same ten year span.
- Nonviolent crime recorded an increase of 62 percent in New Jersey during this ten year span.
- The Major six Urban cities recorded a 41 percent increase in Violent crime and an 21 percent increase in Nonviolent crime during the period.

The accompanying Table reflects percent changes in the state's "Major Urban," and the 15 Urban Municipalities Crime Index for the years 1971-1980.

STREET CRIME

There has never been a clear-cut definition for "street crime" within the Criminal Justice System. The nation's Clearing House for the collection and dissemination of criminal statistics, the Federal Bureau of Investigation, has no criteria in the categorization of specific crimes to be designated or defined as "street crimes." More and more, this "media term" has often been confused with the Violent Crime group of Murder, Forcible Rape, Robbery, and Aggravated Assault.

Although any particular crime can and does occur on the streets, this analysis, because of reporting constraints within the Uniform Crime Reporting System, is limited to defining street crimes as those offenses which occur, or are most likely to occur, on streets, highways, parking lots, etc. These crimes include highway robbery, purse-snatching, larceny from autos, larceny of auto parts and accessories, larceny of bicycles, and motor vehicle thefts. All are crimes against property and only one, highway robbery, falls in the Violent crime group.

SUMMARY

- Street crime increased 26 percent between 1971-1980.
- Nearly 8 out of every 10 highway robberies occurred in the "Urban 15" during the ten year period.
- Over half of all motor vehicle thefts, during the survey span, occurred in these 15 Urban Municipalities.
- Fifty-five of all purse snatching was perpetrated in the "Urban 15" cities.

The accompanying Table reflects percent distribution of street crime for the "Urban 15" cities for the years 1971-1980.

SECTION VIII

NEW JERSEY
POLICE EMPLOYEE DATA

POLICE EMPLOYEE DATA

The Uniform Crime Reporting Program of New Jersey incorporates the collection of pertinent data relating to the police of the state. Information regarding police employee strength, and distribution are discussed in this Section.

Individual listings of full-time state, county, university and college police departments are shown in tables following the narrative portion of this Section. Listings of municipal police departments will be found in the section entitled "New Jersey Demographic Section."

The determination of police strength for any given area or municipality should be a subject for serious consideration. Such consideration, however, should be based on the numerous factors which create the need for police services. For example, the increased need for police service in a municipality which has a highly mobile or seasonal population, differs from a municipality which has a relatively stable population. Some other factors, discussed elsewhere in this publication, relate to size, density of population, geographic location, character, and proximity to metropolitan areas. The Tables and Charts shown in this Section should not be interpreted as recommended strength for any given municipality.

TOTAL POLICE EMPLOYEES

Total police employees are defined as the total number of full-time police officers and civilian police employees (clerks, dispatchers, mechanics, etc.) employed by all law enforcement agencies in the state.

1980 Summary Analysis

VOLUME

- During 1980 there were 33,437 police employees employed full-time by police agencies in New Jersey. This represents a 2 percent increase over 1979.
- Seventy-five percent or 25,089 were sworn officers. The 8,348 civilian employees accounted for the remaining 25%.

Year	Total Police Officers	Total Civilians	Total Police Employees
1979	25,097	7,840	32,937
1980	25,089	8.348	33,437
Percent Change	N/C	+6%	+2%

MUNICIPAL POLICE EMPLOYEES

The number of police employees, including civilian personnel, employed full-time by municipalities of the state.

1980 Summary Analysis

VOLUME/RATE

- During 1980, 19,823 municipal police employees were employed full-time, which is less than a one half of one percent increase compared to 1979.
- There were 2.7 municipal police employees for every 1,000 inhabitants of the state.

TREND

Year	Number of Police Employees	Rate per 1,000 Inhabitants
1979	19,816	2.7
1980	19,823	2.7
Percent Change	N/C	—

- Atlantic County recorded the largest numerical increase (66 employees), up 8% from the 817 reported in 1979 to 883 in 1980.
- Essex County decreased eight percent during the year, from 2,931 employees, to 2,700 police employees in 1980.
- Atlantic County recorded the highest police employee rate, 4.7 per 1,000 inhabitants (This rate is computed on the static population and does not take into account the large influx of seasonal and recreational population).
- Hunterdon County (1.4) Warren County (1.5), and Sussex County (1.4) located in the rural northwest portion of the state, recorded the lowest police employee rates.

MUNICIPAL CIVILIAN POLICE EMPLOYEES

The personnel of each department differ as to the demands and responsibilities placed before them. Many police officers are fully occupied with clerical tasks and are not free to perform active police duties. This current trend in employing civilians in police departments to perform clerical duties, is in line with the thinking of many police administrators who recommend the use of civilians in this capacity, thus freeing the sworn personnel for actual police related services.

1980 Summary Analysis

VOLUME

- There were 2,826 civilian police employees in 1980 resulting in a 4% increase compared to 1979.
- Fourteen percent of all municipal police employees were civilians.

TREND

Year	Number of Civilian Police Employees	Percent Distribution
1979	2,709	13.7
1980	2,826	14.3
Percent Change	+4%	+ 4%

MUNICIPAL POLICE OFFICERS

The number of sworn police officers employed full-time by municipalities of the state

1980 Summary Analysis

VOLUME/RATE

- There were 16,997 full-time municipal police officers reported in 1980, a decrease of one percent over the 17,107 in 1978.
- The number of full-time municipal police officers for each 1,000 persons in the state was recorded at 2.3; no change since 1974.
- Eighty-six percent of all municipal police employees were sworn officers.

TREND

'Year	Number of Police Officers	Percent Distribution	Rate per 1,000 Inhabitants
1979	17,107	86.3	2.3
1980	16,997	85.7	2.3
Percent Change	- 1%	- 1%	—

- The largest numerical increase was reported in Atlantic County; up 45 sworn officers.
- Essex County reported the largest decrease of police officers, down 236 sworn officers.
- Counties reporting the highest rate of full-time municipal police officers per 1,000 inhabitants during 1980 were: Atlantic 3.6, Cape May 3.3 and Hudson 3.4.
- The smallest number per 1,000 inhabitants were found in Sussex 1.1, Hunterdon 1.2, Warren and Salem 1.3.

The police employee rates per 1,000 population presented here should not be construed as being recommended ratios. The determination of police strength for any municipality should be based on the numerous factors which create the need for police services. These factors, as crime, vary in type and degree from place to place. Some examples are: seasonal populations, geographic location, density and composition of the population.

COUNTY POLICE, SHERIFFS, AND PROSECUTORS

The functions of county law enforcement officers vary widely throughout the state. The operation of one sheriff's department may be limited exclusively to civil areas and the administration of the county jail, or they may be actively involved in criminal matters throughout the county. County police departments are varied in their activities as well, in that some are responsible for enforcement throughout the county, while others may have as their primary mission the policing of county parklands. The responsibilities of county prosecutor's officers include criminal investigations, trial preparation, court presentation and special probes. Because of the difference in the types of police service rendered, rates for county law enforcement agencies are not presented here.

1980 Summary Analysis

VOLUME

- The various county law enforcement agencies reported a total of 5,195 full-time police employees for 1980, a 1 percent decrease over 1979.
- There were 3,608 sworn full-time police officers employed by county agencies, 69 percent of the total county police employees.
- Full-time civilian employees were reported at 1,587, 31 percent of the total county police employees.

TREND

Year	Number of Police Officers	Number of Civilian Employees	Total Police Employees
1979	3,800	1,430	5,230
1980	3,608	1,587	5,195
Percent Change	-5%	+11%	-1%

STATE POLICE

The New Jersey State Police is empowered to provide all phases of law enforcement throughout the state. It also renders, upon request, police services, to all the law enforcement agencies in the state. No rates are used due to the variations in the nature and extent of the police services performed by the State Police.

1980 Summary Analysis

VOLUME

- The New Jersey State Police reported a total of 3,294 full-time police employees during the year, a 7 percent increase over 1979.
- There were 2,094 sworn police officers employed during 1980, 64 percent of the total state police employees.
- Thirty-six percent, or 1,200 employees were civilian personnel.

TREND

Year	Number of Police Officers	Number of Civilian Employees	Total Police Employees
1979	2,173	902	3,075
1980	2,094	1,200	3,294
Percent Change	-4%	+33%	+7%

OTHER POLICE (State Agencies)

In addition to the State Police, there were eight other state agencies reporting to the System. No rates were computed due to the variations in the types of police service rendered, and their statewide jurisdictions.

VOLUME

- Together these agencies reported a total of 5,125 full-time employees.
- Fifty three percent or 2,735 were civilian employees, while the remaining 47 percent, or 2,390 were sworn personnel.

TREND

Year	Number of Police Officers	Number of Civilian Employees	Total Police Employees
1979	2,017	2,799	4,816
1980	2,390	2,735	5,125
Percent Change	+18%	- 2%	+ 6%

SECTION IX

LAW ENFORCEMENT OFFICERS

KILLED AND ASSAULTED

SUMMARY

Police Officers Killed and Assaulted

The killing or assault of a police officer has a deleterious effect on society that reaches far beyond the overt act. Such occurrences constitute an immediate threat to the well-being of the community and a serious breach of the internal security of the country. Today a young man who considers a career in law enforcement must also consider the very strong possibility of being killed or assaulted by a member of the very same society he is sworn to protect. This deplorable situation should be a subject of serious public concern, for in truth, an attack on a police officer is an attack on society. The violence directed against law enforcement officers acting in the line of duty is clearly demonstrated by the following information.

POLICE FELONIOUSLY KILLED
1980 Summary Analysis

VOLUME

- During 1980, one N.J. police officer was killed as a result of criminal action.
- The police officer was killed by the use of a firearm.
- Law enforcement cleared this police killing.
- This is the third time one police officer has been killed during the one year period since statewide crime statistics began in 1967.
- Since 1967, thirty-four police officers have been feloniously killed in the line of duty.
- On Nov. 28, 1980, a patrolman with Newark P.D. was killed with a .38 calibre handgun. The officer was shot and killed while attempting to thwart the armed robbery of a bank in Newark, N.J.

TREND

Year	Police Officers Killed	Year	Police Officers Killed
1967	3	1974	1
1968	--	1975	3
1969	4	1976	5
1970	3	1977	--
1971	4	1978	--
1972	1	1979	5
1973	4	1980	1

ASSAULTS ON POLICE OFFICERS

Police assault statistics are important to the police administrator who attempts to identify the causative factors of this type of criminal activity. Many factors contribute to police assaults, and circumstances vary from place to place. It is therefore extremely difficult to identify specific reasons for these assaults. The following information illustrates the frequency of these events, and any attempt at analysis of these assaults should include consideration of the unique variables present in each jurisdiction.

1980 Summary Analysis

VOLUME

- There were 4,279 police officers assaulted in New Jersey during the year 1980, a one percent decrease over the previous year.
- This is the second year police assaults have decreased in the state.

TREND

Year	Total Number of Police Officers Assaulted
1979	4,316
1980	4,279
Percent Change	−1%

- No assault rates are computed for total police officers assaulted, because of the broad field of services performed by many state and county policy agencies.

ASSAULTS ON MUNICIPAL POLICE OFFICERS

1980 Summary Analysis

VOLUME/RATE

- There were 3,950 municipal police officers assaulted, a three percent decrease compared to 1979.
- Thirty one percent or 1,214 officers sustained physical injury to one degree or another.
- The assault rate for every 100 municipal police officers, reached 23.2 assaults; a decrease of three percent when compared to 1979.

TREND

Year	Municipal Police Officers Assaulted	Rate per 100 Population
1979	4,085	23.9
1980	3,950	23.2
Percent Change	-3%	-3%

OTHER POLICE OFFICERS ASSAULTED

The following state and county law enforcement agencies are dealt with separately, and are not included when computing municipal assault rates. The services performed by these agencies vary greatly from the functions of municipal police agencies, and therefore should be considered within the municipal grouping.

1980 Summary Analysis

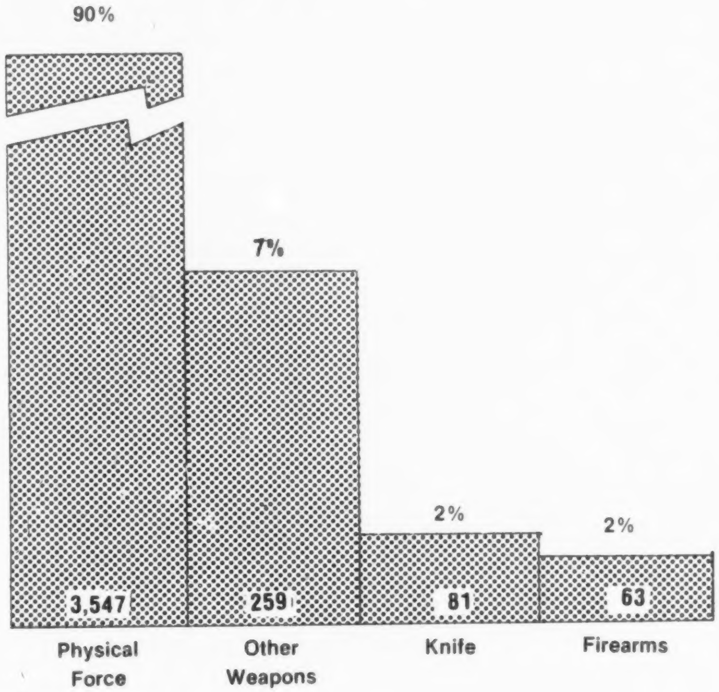
VOLUME

- County law enforcement agencies reported 171 officers assaulted, of these 49 sustained physical injury.
- The New Jersey State Police reported 93 troopers assaulted, 24 of whom were injured.
- Other state agencies with police powers, reported a total of 65 officers assaulted and 60 sustained injury.

WEAPONS USED

- Personal weapons, such as hands, fist and feet were used in 90 percent of all police assaults.

1980
WEAPONS USED IN ASSAULTS ON POLICE OFFICERS *
Total Police Assaults - 3,950

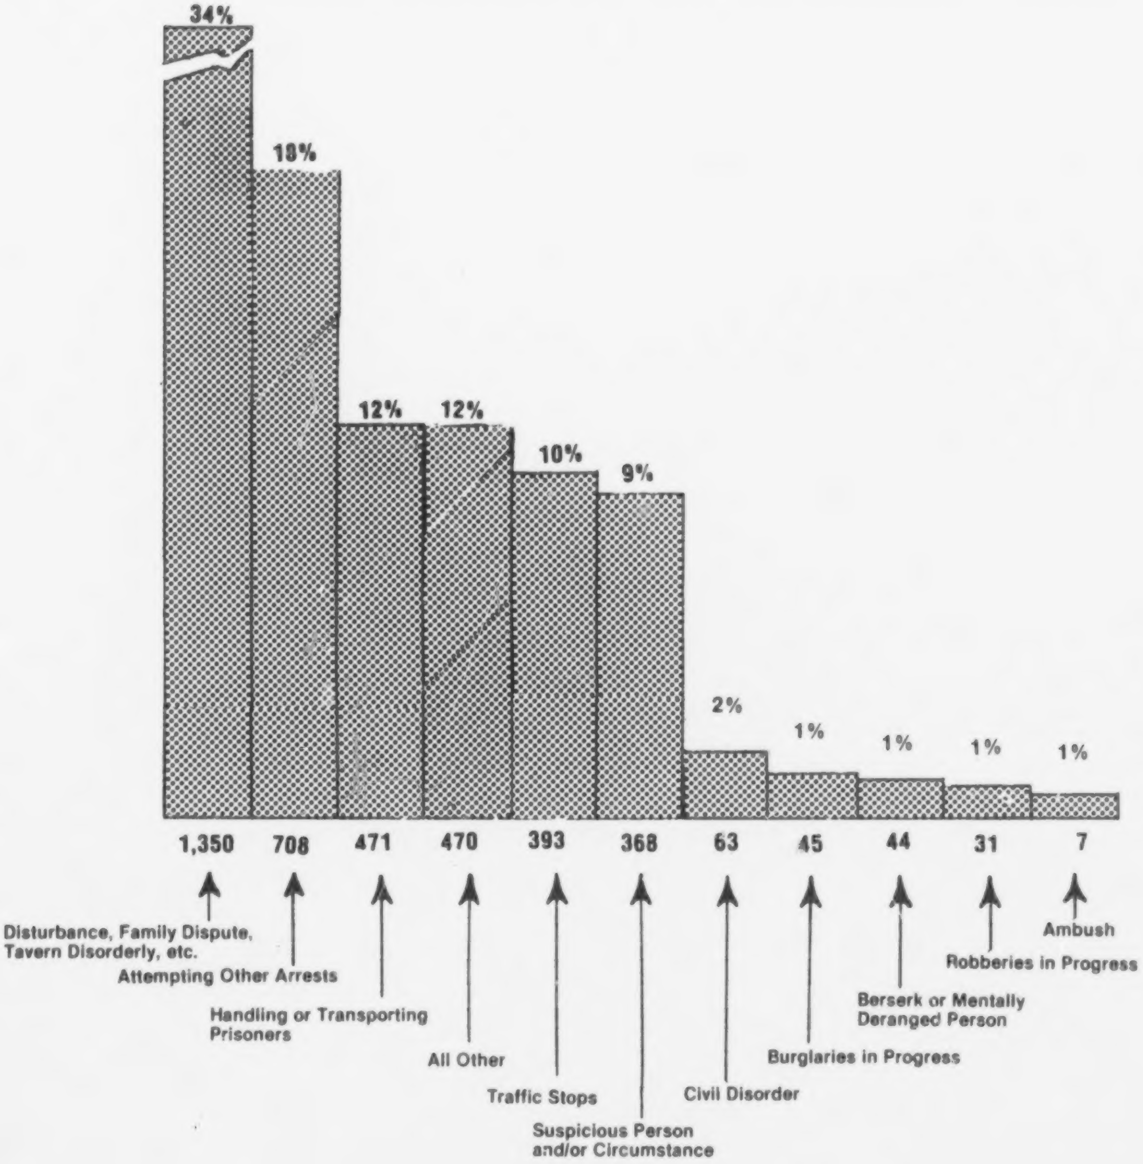


*Due to rounding percentages will not add to 100 percent.

TYPE OF ACTIVITY

- Thirty-four percent of police assaults occurred when officers were responding to disturbanc calls.
- Officers attempting other arrests accounted for 18 percent of the police assaults.

POLICE ASSAULTED BY TYPE OF ACTIVITY — 1980

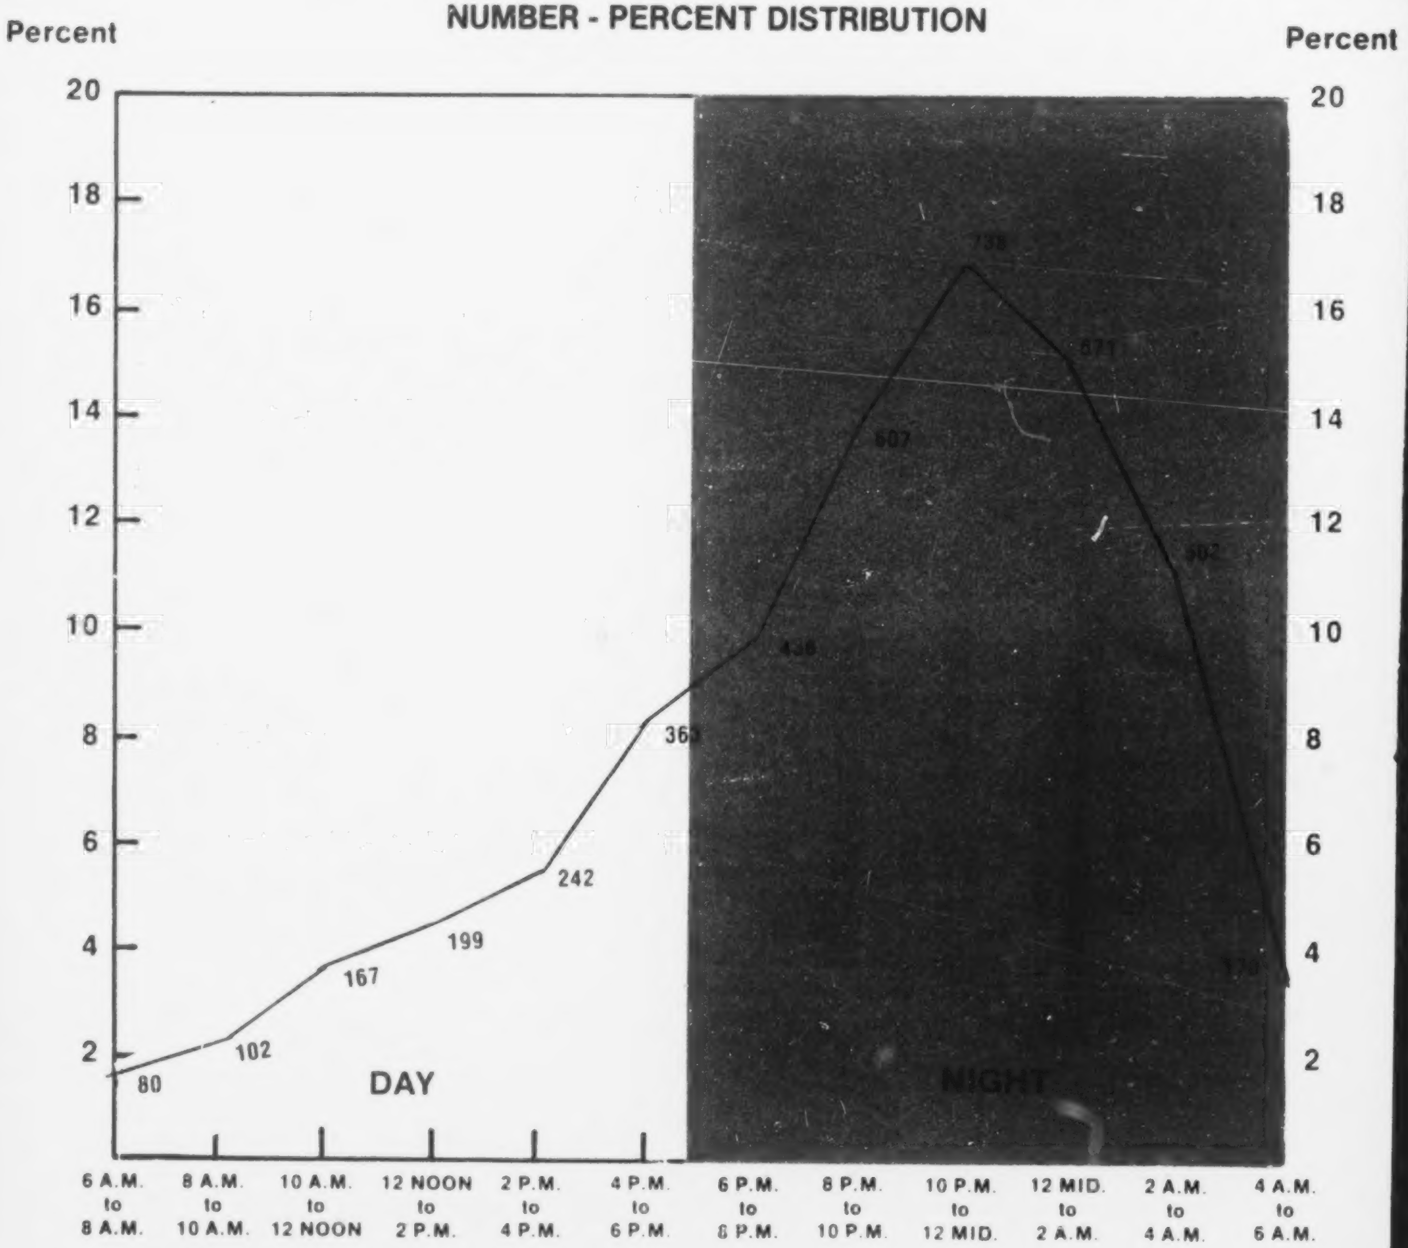


TIME OF POLICE ASSAULTS

- The four hour period of 8:00 p.m. to Midnight accounted for over 31 percent of the assaults on police officers.
- Fifty-nine percent of the police assaults occurred during the eight hour period between 8:00 p.m. to 4:00 a.m.

ASSAULTS ON POLICE OFFICERS BY HOUR OF DAY

NUMBER - PERCENT DISTRIBUTION



ARRESTS/CLEARANCES

- The police of New Jersey were successful in clearing by arrest 99 percent of the assaults directed at them.
- Thirty-nine percent of those arrested for police assaults were charged with an indictable offense and the remainder were charged with the lesser non-indictable offense.
- Juveniles accounted for 9 percent of those arrested for assaults on police officers.

POLICE OFFICER ASSAULTED SCENARIO

A municipal Police Officer is assaulted by an individual using physical force between the hours of 8:00 p.m. and 4:00 a.m.; the officer is answering a disturbance call and the offender will be arrested in 99 percent of the cases.

GLOSSARY OF TERMS

ADULT	For Uniform Crime Reporting purposes, a person aged 18 or over.
ALL OTHER RACE	For UCR purposes, applies to Filipinos, Hawaiians, Eskimos, Aleuts, Koreans, Asian Indians and Malayans.
ARREST RATE	The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 1,000. Arrest rates are computed in the same manner as crime rates.
CLEARANCE	For UCR purposes, the solution to a particular crime, usually by the arrest of the offender.
CLEARED BY ARREST	For UCR purposes, an offense is cleared when the offender has been identified, sufficient evidence has been obtained to formally charge and the offender has been ordered to appear in court.
CRIME INDEX	The sum total of seven major offenses used to measure the extent, fluctuation and distribution of crime in a geographical area. The following crimes make up the Index: Murder, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny-Theft, and Motor Vehicle Theft. These offenses are referred to as Index offenses.
CRIME RATE	The number of Index offenses reported for each unit of population, per 1,000. Crime rates are computed by dividing the number of Index offenses by the population of the community and multiplying the answer by 1,000. Example: 500 Index offenses divided by 10,000 population × 1,000 = 50.0 Crime Rate.
CRIMES AGAINST PERSONS	Consists of the following Index offenses: Murder, Forcible Rape, and Aggravated Assault.
CRIME AGAINST PROPERTY	Consists of the following Index offenses: Robbery, Burglary, Larceny-Theft, and Motor Vehicle Theft.
DAY	For UCR purposes, the hours from 6 A.M. to 6 P.M.
EXCEPTIONAL CLEARANCE	For UCR purposes, an offense is cleared in this manner when an offender has been identified, located and sufficient evidence to charge has been obtained but there is some reason beyond police control which prohibits the offender from being brought before the court.
FELONY MURDERS	Those killings which are perpetrated during the commission of another crime. They are classified as Rapes, Robberies, Sex Offenses, Aggravated Assault, Arson, and other felonious activities.
HIERARCHY RULE	For UCR purposes, each crime or attempted crime is counted in only one offense category. If several offenses are committed, simply glance down the list of Part I offenses and stop at the first offense you recognize from the facts given. This offense is the correct classification for this criminal activity.
INDIAN RACE	For UCR purposes, applies to the American Indian.
JUVENILE	For UCR purposes, a person under the age of 18.

JUVENILE CLEARANCE	Those crimes where the offenders are identified as juveniles.
NIGHT	For UCR purposes, the hours from 6 P.M. to 6 A.M.
NONVIOLENT CRIME	Consists of the following Index offenses: Burglary, Larceny-Theft, and Motor Vehicle Theft.
OTHER DANGEROUS WEAPON	For UCR, includes assaults resulting from the use of any object or thing as a weapon which does or could result in serious injury.
PART I OFFENSES	The first of two main categories of crime classes composing a Universal Crime Classification System established for crime reporting purposes. Murder, Manslaughter, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny-Theft, and Motor Vehicle Theft, make up the Part I offenses. These crimes are by their very nature more serious and/or occur more frequently. The monthly tabulation of Part I offenses provides a count of "offenses known."
PART II OFFENSES	The second of two main categories of crime classes composing a Universal Crime Classification System established for crime reporting purposes. Part II offenses are generally less serious in nature.
VIOLENT CRIME	Consists of the following Index offenses: Murder, Forcible Rape, Robbery, and Aggravated Assault.

June 18, 1982

The Honorable Thomas H. Kean
Governor of the State of New Jersey

Honorable Members of the Senate and
Assembly of the State of New Jersey

Dear Governor and Members of the Legislature:

Pursuant to N.J.S.A. 52:17B-5.5, I am submitting the fifteenth annual report on crime in New Jersey. This information is based on statistics submitted to the New Jersey Uniform Crime Reporting System by every New Jersey law enforcement agency for the year 1981.

This report has been prepared to provide reliable and comprehensive analysis of crime data for the criminal justice community. The graphic and statistical representation of the various crime factors should assist law enforcement administrators in planning programs to combat crime throughout New Jersey.

It would have been impossible to complete this report without the cooperation of New Jersey's municipal, county, state, and other law enforcement agencies, 582 of whom contributed to this effort in 1981. It is with appreciation to these dedicated public servants, and in the interest of more effective law enforcement for all the citizens of New Jersey, that this fifteenth annual Uniform Crime Report is submitted.

Respectfully,

IRWIN I. KIMMELMAN
Attorney General

IIK:def

IN MEMORIAM

Members of all Law Enforcement Agencies, and the entire criminal justice community extend their sympathy to the families of the three law enforcement officers killed in the line of duty in New Jersey in 1981.

SECTION I

SYNOPSIS
UNIFORM CRIME
REPORTING PROGRAM

THE NEW JERSEY UNIFORM CRIME REPORTING SYSTEM

DEFINITION

The New Jersey Uniform Crime Reporting System is based upon the compilation, classification, and analysis of crime data reported by all New Jersey police agencies in accordance with the regulations prescribed by law.

DEVELOPMENT

The New Jersey Uniform Crime Reporting Law (N.J.S.A. 52:17 B-5.1 et seq) was enacted on May 16, 1966, and became effective January 1, 1967. Responsibility for the establishment, direction, control, and supervision of the Uniform Crime Reporting System was assigned to the State's Attorney General. The Attorney General authorized the New Jersey State Police to collect and collate the crime data received from law enforcement agencies within the state.

At the request of the Attorney General, the New Jersey State Police researched crime systems in operation throughout the nation in order to establish a firm foundation from which to grow. The most logical approach was the paralleling of the federal crime reporting system. There was a distinct need for a compatibility feature that would enhance both the state and federal systems through the data entry at both levels.

This compatibility has, as its nucleus, the standard classification of offenses established by the Federal Bureau of Investigation. Regardless of the label placed on a particular offense in the various states' systems, i.e., felony, misdemeanor, disorderly persons, if the incident meets the federal standard it will be reported as an offense.

The terms "crime" and "offense" are used interchangeably in this publication, and refer to an act committed in violation of a law which is reportable under the guidelines of the Uniform Crime Reporting Program.

The Committee on Uniform Crime Reporting of the New Jersey State Chiefs of Police Association has served the program in an advisory capacity since 1966. The contributions of this committee have proven valuable to the success of the program. This committee works in close harmony with the State Police as a means of improving the quality of reporting through recommended program standards, policies, and procedures.

COLLECTION OF CRIME DATA

As required by statute, all law enforcement agencies in the state submit monthly and annual summary crime reports to the program. During the year 1981, offense and arrest data were received from 483 full-time municipal police departments, twenty-nine (29) part-time municipal police departments, and the New Jersey State Police (acting as the reporting agent for the 55 municipalities without local police services).

In addition to the above agencies, arrest data were received from the state's twenty-one (21) prosecutor's, sheriffs' departments, four (4) county police departments, and five (5) county park police departments. In order to incorporate all New Jersey law enforcement agencies under the system, the eight (8) other state agencies with law enforcement responsibilities, as well as eleven (11) college campus police departments were incorporated within the program. Collectively, a total of 582 law enforcement agencies submit their reports to the New Jersey State Police.

METHOD

The Uniform Crime Reporting Guide, which was revised during 1977, has been distributed to all contributors. It outlines reporting procedures in detail, and is complete to the extent of providing examples and illustrations. Field representatives provide additional instruction and clarification when required.

All reported offenses are related to the municipality in which they occur rather than to the agency which may conduct the investigation. The clearance is credited to the municipality in which the offense occurred. Each contributing agency is responsible for compiling its own reports. Law enforcement agencies report the number of known offenses according to the following categories: Homicide (Murder and Manslaughter), Forcible Rape, Robbery, Assault, Burglary, Larceny-theft, Motor Vehicle Theft, and Arson. The "Crime in New Jersey," and the Federal Bureau of Investigation's "Crime in the United States" publications, exclude manslaughters, simple assaults, and arsons from the "Index" offenses. These are further referred to as "violent" and "nonviolent" crimes as graphically illustrated in Section VII under "State, County, Municipal Offense and Demographic Data," and Section II, "Part I and Index Offense Analysis."

All reported offenses are compiled from a record of all criminal complaints received by police from victims or other sources, or discovered by the police during routine operations. Complaints determined to be unfounded are eliminated from this count. Analytical data pertaining to specific crime categories are also reported, i.e., total adult and juvenile arrests made during the month. Police killed or assaulted, and arson data are also collected monthly. Police personnel information is submitted on an annual basis.

VERIFICATION PROCESSES

The uniformity and accuracy of data gathered from 582 contributors must be safeguarded through various ways. Although guidelines and instructions are provided each contributor, they are not the panacea for the accuracy being sought.

The reports received by the Uniform Crime Reporting Unit are recorded and examined for mathematical accuracy and reasonableness of the interpretation of the offense classifications. Improper classifications, changes in reporting procedures, or actual change are identified in this manner. Errors of a minor nature are corrected by direct telephone contact with the contributors, while all other errors are resolved through a personal visit by a field representative to the reporting agency.

Further verification is accomplished through the analysis of statistical data accrued from the reports submitted. Fluctuations in crime rates noted from previous submissions are verified by the field representatives through their municipal counterpart.

FUNCTION

Police executives make use of this data in administrative, planning, and operational determinations for their respective jurisdictions. The State Police Uniform Crime Reporting Unit provides assistance to municipal police agencies through the individual analysis of statistics as they relate to specific crime problems within their jurisdiction. Police executives also use this data for identifying manpower and equipment needs. The Uniform Crime Reporting Program requirements not only have increased police efficiency in reporting and recordkeeping areas, but have helped police in their day to day operations.

Although the data collected on the offenses of manslaughter and simple assault are not presented in the annual report, they are required for the federal system. However, this data is processed and available for special research purposes.

PROFILE OF NEW JERSEY

New Jersey is situated between the major industrial markets of New York and Philadelphia and can be classified as the "Crossroads of the East." The geographic location of the state has been a major factor in its growth and development. The many miles of super-expressway facilities within the state connect New Jersey directly with the neighboring states of New York, Pennsylvania, and Delaware. Additionally, New Jersey as a corridor state, accommodates large volumes of traffic from both the eastern and western part of the United States.

The state is politically comprised of 21 counties which contain 567 incorporated municipalities. Nationally, New Jersey, although 46th in size, ranks ninth in population and first as the most densely populated state in the country. In addition to this density of 982.4 persons per square mile, New Jersey still has many miles of rural areas and sparsely settled communities. The areas of density show a heavy concentration around the major urban centers and those areas most accessible for commuting.

1980 Area In Sq. Miles	1970 Census Population	1980 Census Population	1980/1970 Percent Change	1970 Density Per Sq. Mile	1980 Density Per Sq. Mile
7,495.73	7,168,164	7,364,158	+2.7%	954.5	982.4

STATE, COUNTY AND MUNICIPAL PROFILES

The presentation of state, county and municipal profiles in this section is offered for the purpose of projecting, for the consideration of the reader, a group of recognizable factors which may affect the amount and type of crime that occurs from community to community. Selection of the areas of information to be related to individual municipalities was based on the immediacy and completeness of data available.

Population statistics presented here, and throughout this publication, were obtained from the Department of Labor & Industry, Division of Planning and Research, Office of Demographic and Economic Analysis. The adjusted 1980 census counts of population were used in this publication.

Character of municipalities by urban, suburban and rural classifications, and square miles, were compiled by the Department of Community Affairs, Division of State and Regional Planning, Bureau of Statewide Planning. Following is a list of categories used and a description of each category.

• URBAN CENTER	Densely populated with extensive development.
• URBAN-SUBURBAN	Near an urban center but not as extremely developed and more residential areas.
• URBAN CENTER RURAL	Densely populated core area but surrounded by rural areas.
• SUBURBAN	Predominantly single family residential, within a short distance of an urban area.
• SUBURBAN RURAL	Rapidly developing area but still large tracts of open land available for development.
• RURAL	Scattered small communities and isolated single family dwellings.
• RURAL CENTER	High density core area with surrounding municipalities rural.
• RURAL CENTER-RURAL	Small developed core area surrounded by rural areas.

Certain other socio-economic factors present in varying degrees in all communities may have an influence on resulting crime rates. Obvious difficulties in the identification, documentation and measurement of these factors, however, precluded their application in this report.

Those factors presented were listed to affirm their existence within the county and community and to provide a base for consideration in the evaluation of that community's crime experience.

CRIME FACTORS

Statistics gathered under the Uniform Crime Reporting Program are submitted by the law enforcement agencies of New Jersey and project a statewide view of crime. Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

Crime, as an outgrowth of society, remains a social problem of grave concern and the police are limited in their role to its suppression and detection. As stated by the President's Commission on Law Enforcement and Administration of Criminal Justice in their report *The Challenge of Crime In a Free Society*—(1967-Page 92)—"But the fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America. They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only part of the criminal justice system; the criminal justice system is only one part of the government; and the government is only one part of society. Insofar as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case by case operations, one criminal or one crime at a time." Set forth below are some of the factors which, by type and volume, will affect the crime that occurs from place to place:

- Density and size of the community population and the metropolitan areas of which it is a part.
- Composition of the population with reference particularly to age, sex, and race.
- Economic status and mores of the population.
- Relative stability of population, including commuter, seasonal, and other transient types.
- Climate.
- Cultural conditions, such as educational, recreational, and religious characteristics.
- Effective strength of the police force.
- Administrative and investigative emphases of law enforcement.
- Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional, and probational)
- Crime reporting practices of the general citizenry.
- Attitudes of the public toward law enforcement problems.
- The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.
- Cooperation of adjoining and overlapping police agencies.

Crime rates in this publication are based on the stable population of the municipality. Seasonal population figures are too inaccurate and fluctuating to be used as a measurement for determining crime rates. Municipalities with high seasonal populations may indicate a higher crime rate per one thousand than may be normal for a municipality their size; this would also be indicated in municipalities that experience high population increases due to special events or commuters to places of employment.

THE POLICE POINT OF VIEW

As in the past, the New Jersey State Police Uniform Crime Reporting Unit has been surveying police agencies of the state, attempting to ascertain their viewpoint concerning contributing crime factors. Increased abuse of drugs and alcohol, insufficient manpower, lenient courts, seasonal population changes, poor economic stability and high unemployment, are some of the general type responses received from many of the police agencies.

Many of the specific type responses concerning the increase or decrease of a particular crime have been documented in earlier publications of "Crime in New Jersey" but these viewpoints are still valid and appear again below.

ROBBERY

Increases:

- The availability of new roadways in our highly mobile society, provide a swift avenue to and from communities previously difficult to reach; this factor has also shown a relationship with burglaries in suburban and rural areas.
- Seasonal increases of tourists to resort areas of the state has attributed to the increase.

Decreases:

- The addition of highly visible scooter and foot patrols in high density crime areas; selective enforcement; stake-out squads are assigned to target areas using analytical information derived by studying past robbery occurrences.
- Increased communications technology has led to better communications and increased exchanges of information between police departments; this factor also has an effect on other types of crime.

BURGLARY

Increases:

- Husband and wife are both working; leaving homes more frequently unoccupied during the daylight hours.
- High truancy rates at Junior High Schools and High Schools has also been noted as a contributor to daytime burglary increases.
- Unoccupied vacation homes are being entered during the off-season. Many police administrators cite insufficient manpower to properly patrol these areas as a contributing factor.
- Little or no security measures are initiated by the average citizen to protect his own property.
- Juvenile recidivists receive no detention after they are arrested numerous times for being involved in burglaries.

Decreases:

- Crime prevention programs are being stressed in many communities as a means of decreasing crime. Programs as "Neighborhood Watch" and "Operation I.D." have proven to be successful as a deterrent to burglaries, as well as other crimes.
- An increased tendency by the public to "get involved" and report suspicious circumstances, has been noted.

LARCENY-THEFT

Increases:

- Theft of auto parts, and property contained inside motor vehicles is the most common type of larceny being reported to police in New Jersey; this is attributed to:
  - —Shortage of police manpower to adequately patrol parking lot areas.
  - —A lack of security provided by the various shopping malls in their own parking areas.
  - —Availability and visibility of the articles left in the vehicles.
- Shoplifting is a theft that police have little or no control over. Store security forces are under the control of the store administration, and their arrest policies vary from strict enforcement, arrest and prosecution, to only a warning. Policy change has been directed toward prosecuting the offenders rather than warning them, causing to some extent, an increase in the number of shoplifting offenses reported to police.
- A renewed interest in bicycling has attributed to bicycle thefts.

Decreases:

- Surveillance of shopping mall parking areas, utilizing motor scooters, and plain clothes foot patrols, is a contributing factor.
- Use of additional or improved lighting prevent criminal acts from occurring in parking areas.
- Public awareness programs contribute to the decrease in thefts from parked vehicles; these types of programs also help reduce bicycle thefts.
- Thefts of bicycles has decreased as a result of safety and security programs implemented by police in the various schools; this includes the registration and marking of bicycles with special numbers.

MOTOR VEHICLE THEFT

Increases:

- The tremendous replacement cost of auto parts has contributed significantly to the increase in motor vehicle thefts. The vehicle's value has nearly doubled in recent years, due to the high replacement cost of parts and accessories.

  Note: Only 60 percent of the stolen motor vehicles were recovered in the UCR Program, probably due in part to "theft for parts," chop-shops, etc.
- The popularity of mopeds and mini-bikes has attributed to motor vehicle thefts.

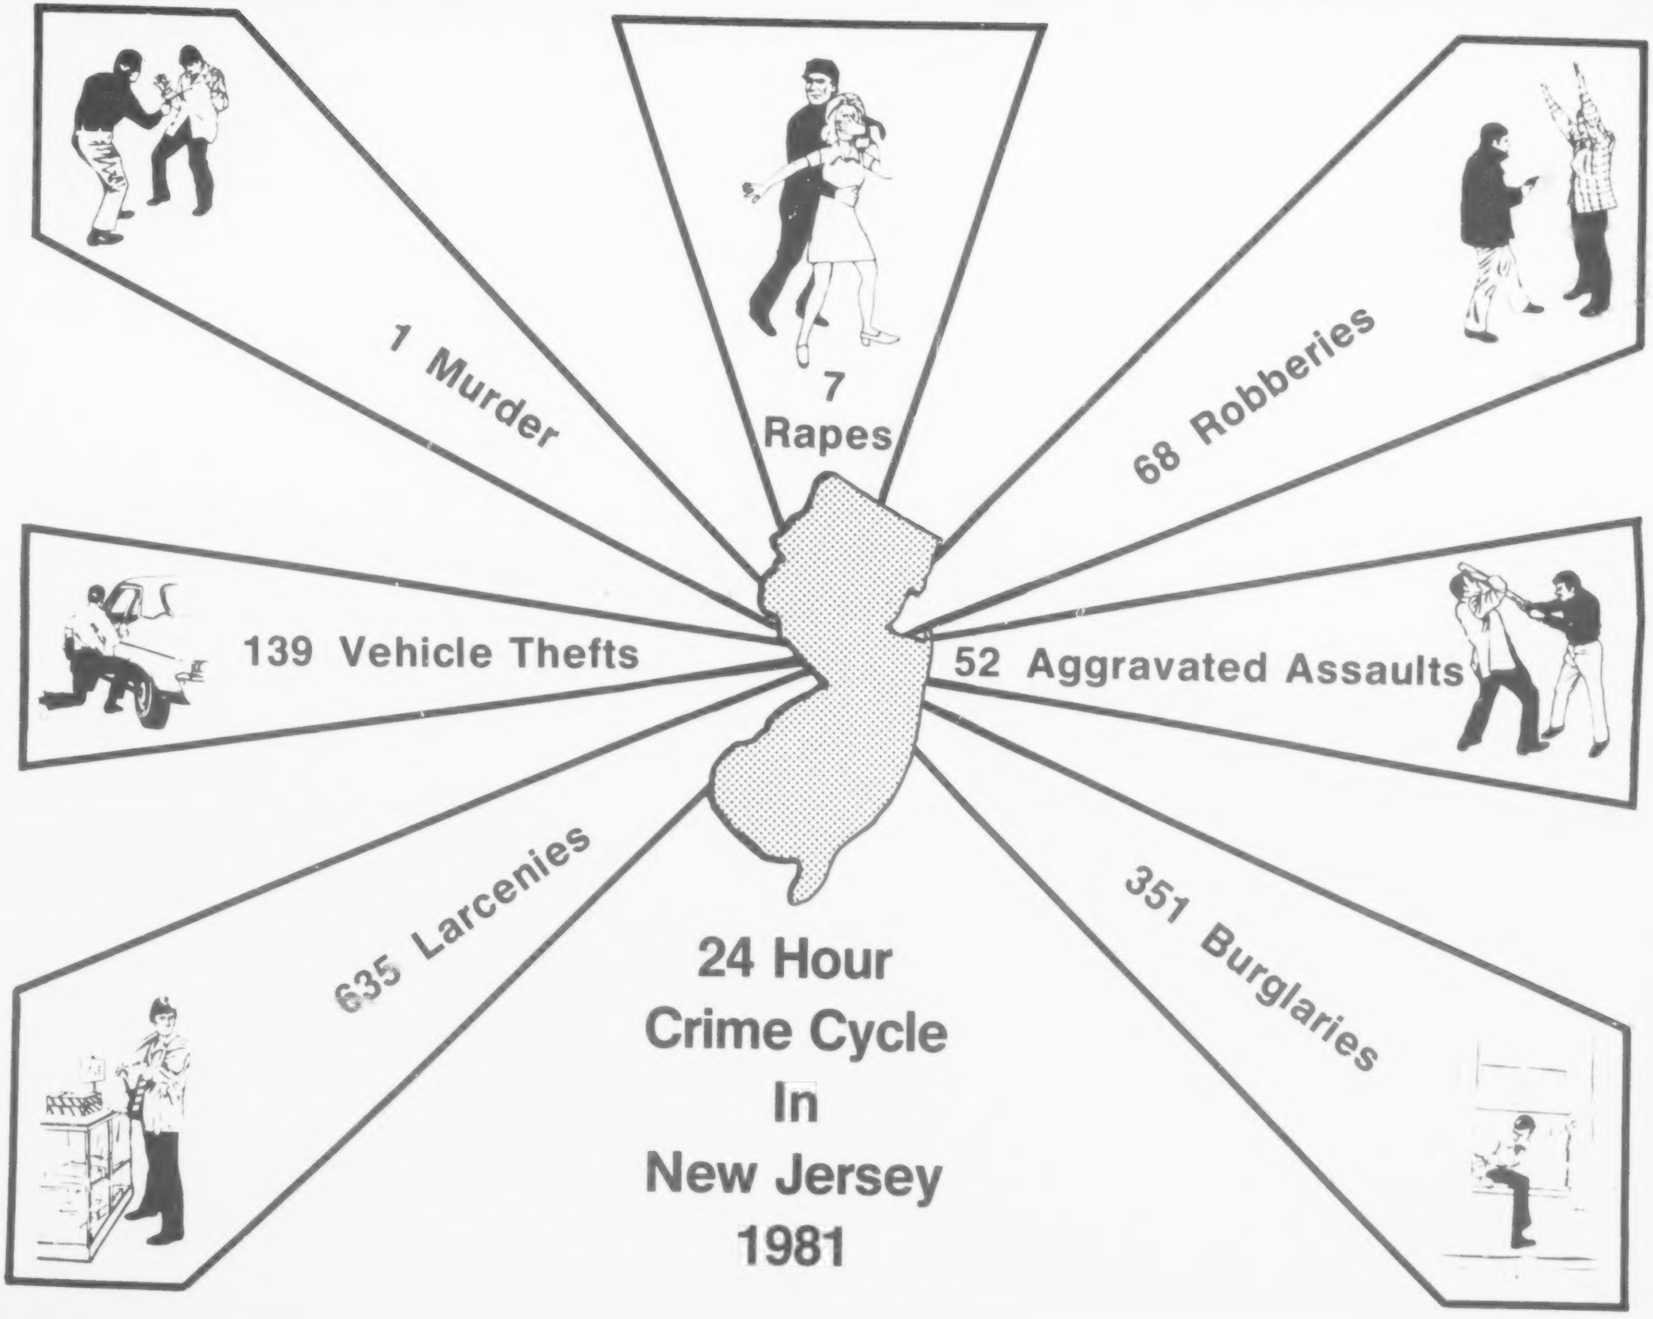
Decreases:

- More police surveillance and better lighting in parking lots has helped decrease motor vehicle thefts.
- Modern ignition systems and anti-theft devices act as a motor vehicle theft deterrent.

SECTION II

PART 1 AND INDEX OFFENSE ANALYSIS

- MURDER
- FORCIBLE RAPE
- ROBBERY
- AGGRAVATED ASSAULT
- BURGLARY
- LARCENY-THEFT
- MOTOR VEHICLE THEFT
- ARSON



24 Hour Crime Cycle In New Jersey 1981

1 Murder

The Crime Clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the index offenses. This mode of display should not be taken to imply a regularity in the commission of these offenses; rather, it represents the annual ratio of crime to fixed time intervals.

CRIME INDEX FOR THE STATE, 1981

OFFENSES	NUMBER OF INDEX OFFENSES	RATE PER 1,000 INHABITANTS	PERCENT DISTRIBUTION	NUMBER OF OFFENSES CLEARED	PERCENT OF OFFENSES CLEARED

STATEWIDE CRIME SUMMARY—1981

CRIME INDEX

- There were 457,405 Index offenses reported in 1981, a 3 percent decrease compared to 1980.
- The total value of property stolen amounted to $359 million in 1981.
- Robbery increased 11 percent during the year, to 24,753 offenses.
- Burglary decreased in the state by 7 percent, with 128,278 reported offenses.
- During the five year period 1977-1981, the Crime Index in rural communities increased 30 percent, urban areas increased 28 percent, and suburban crime increased 13 percent.

CRIME RATE

The crime rate of the state is 62.1 victims per Index offense, for every 1,000 permanent inhabitants.

62.1 Crimes per 1,000 inhabitants
621.1 Crimes per 10,000 inhabitants
6,211.2 Crimes per 100,000 inhabitants

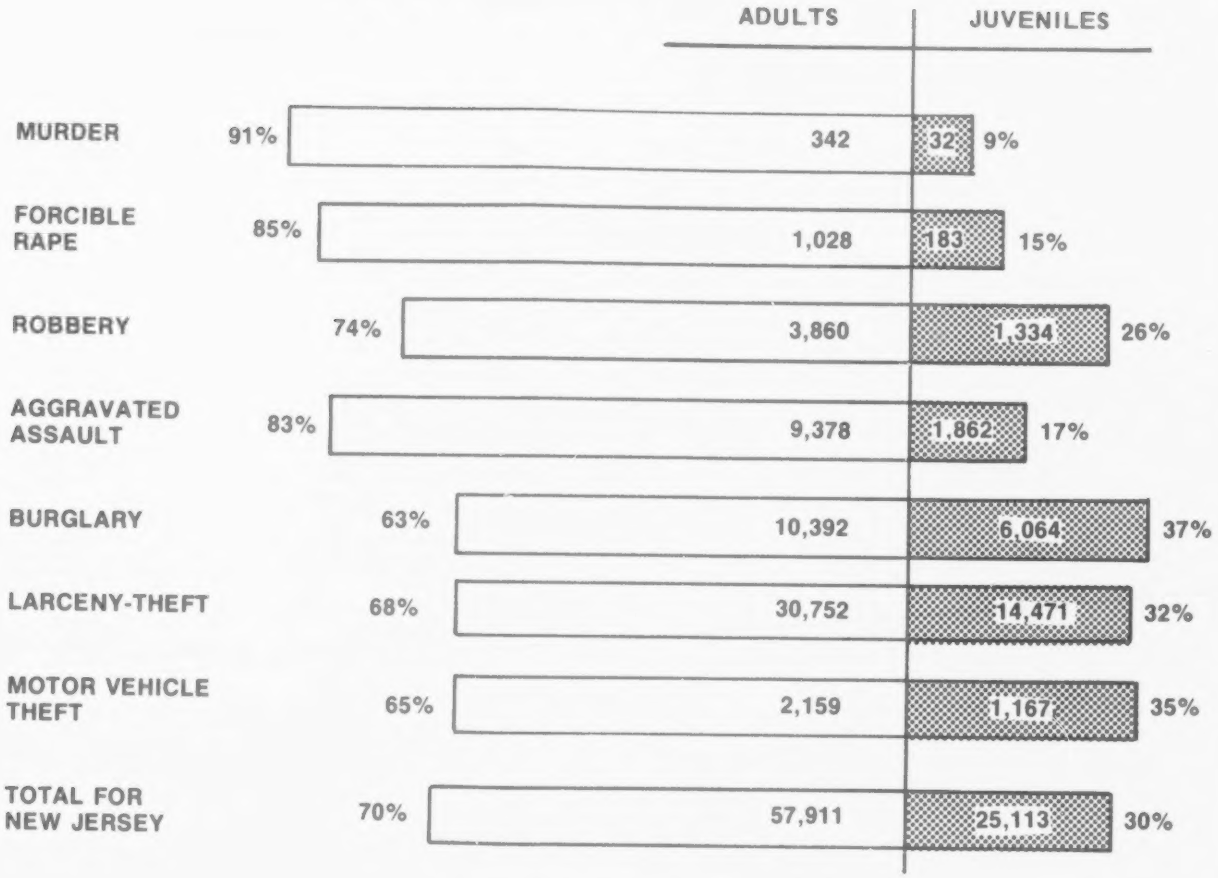
PERCENT AND NUMBER OF INDEX OFFENSES CLEARED BY ARREST OF ADULTS AND JUVENILES



CRIME INDEX ARRESTS/CLEARANCES

- A total of 87,399 persons were arrested for Index offenses, which represents a 4 percent increase over 1980.
- Adult Index arrests increased 8 percent and juvenile arrests decreased 2 percent
- Crime Index arrests accounted for 24 percent of the total arrests in 1981.
- Males accounted for 81 percent of the Crime Index arrests, and females accounted for 19 percent.
- Fifty-eight percent of the Index arrests were white and 42 percent were black.
- Police cleared 18 percent of the Index offenses and juveniles accounted for 30 percent of these clearances.

TYPE AND VALUE OF PROPERTY STOLEN AND RECOVERED
1980-1981

TYPE OF PROPERTY	YEAR	VALUE OF PROPERTY STOLEN	VALUE OF PROPERTY RECOVERED	PERCENT OF VALUE RECOVERED
Currency, Notes, etc.	1980	$27,913,010	$ 1,541,546	5.5
	1981	**30,144,466**	**2,506,228**	**8.3**
Jewelry and Precious Metals	1980	78,124,585	3,043,503	3.9
	1981	**71,500,202**	**3,354,067**	**4.7**
Furs	1980	2,369,877	79.767	3.4
	1981	**2,346,296**	**112,893**	**4.8**
Clothing	1980	5,840,735	810,694	13.9
	1981	**6,906,864**	**1,026,768**	**14.9**
Motor Vehicles	1980	143,224,727	81,968,767	57.2
	1981	**143,430,407**	**80,065,091**	**55.8**
Miscellaneous	1980	103,421,388	10,071,849	9.7
	1981	**104,957,886**	**10,420,005**	**9.9**
TOTAL FOR NEW JERSEY	1980	360,894,322	97,516,126	27.0
	1981	**359,286,121**	**97,485,052**	**27.1**

- August with 43,234 offenses reported, recorded the highest incidence of Crime Index offenses.
- Total value of property stolen amounted to $359.2 million in 1981, a slight decrease from the previous year.
- Value of property recovered was $97 million, resulting in a recovery rate of 27 percent.
- Stolen motor vehicles accounted for 40 percent of stolen property value, and 82 percent of the recovered property value.

VIOLENT CRIME SUMMARY

This category consists of the following Index offenses: Murder, Forcible Rape, Robbery and Aggravated Assault.

VOLUME RATE

- There were 46,656 violent crimes reported in 1981, which reflects a 5 percent increase over 1980.
- Violent crime accounted for 10 percent of the total Crime Index.
- The violent crime rate increased 5 percent to 6.3 victims for every 1,000 permanent inhabitants.

TREND

Year	Number of Offenses	Rate per 1,000 Population
1980	44,380	6.0
1981	46,656	6.3
Percent Change	+ 5%	+ 5%

- October recorded the highest number of violent crime, with 4,198 offenses.
- The total value of property stolen as a result of violent crime was $14.6 million in 1981.

ARRESTS/CLEARANCES

- Arrests for violent crime offenses increased 5 percent in 1981, to 18,135.
- Violent crime arrests accounted for 21 percent of the Index arrests and 5 percent of the total arrests during the year.
- Adult arrests for violent crime increased 3 percent, and juvenile violent crime arrests increased 11 percent.
- Adults accounted for 73 percent of the violent crime arrests, and juveniles the remaining 27 percent.
- Males were responsible for 91 percent and females 9 percent of the violent crime arrests.
- Whites accounted for 46 percent and blacks 54 percent of the violent crime arrests.
- Thirty-nine percent of all violent crimes were cleared and juveniles accounted for 19 percent of these clearances.

NONVIOLENT CRIME SUMMARY

This category consists of the following Index offenses: Burglary, Larceny-theft, and Motor Vehicle Theft.

VOLUME/RATE

- There were 410,749 nonviolent crimes reported in 1981, a 4 percent decrease compared to 1980.
- Nonviolent crime accounted for 90 percent of the total Crime Index.
- Burglary and larceny-theft continue to account for 79 percent of the total Crime Index.
- The nonviolent crime rate decreased to 55.8 victims per 1,000 inhabitants, a 4 percent decrease over 1980.

TREND

Year	Number of Offenses	Rate per 1,000 Population
1980	425,789	58.1
1981	410,749	55.8
Percent Change	- 4%	- 4%

- August, with 39,042 offenses recorded the highest number of nonviolent crime during 1981.
- The total value of property stolen in nonviolent crime amounted to $344.6 million in 1981.

ARRESTS/CLEARANCES

- Nonviolent crime arrests increased 3 percent in 1981, as 69,202 persons were arrested.
- Nonviolent crime arrests accounted for 80 percent of the Index arrests and 19 percent of the total arrests reflected during 1981.
- Juveniles were responsible for 43 percent of the nonviolent crime arrests and adults 57 percent.
- Adult nonviolent crime arrests increased 9 percent, while juvenile arrests decreased 4 percent.
- Males represented 79 percent, and females 21 percent of persons arrested for the nonviolent crimes against property.
- Sixty-two percent of all persons arrested for nonviolent crimes were white, 38 percent were black; (less than one-half of one percent were other races).
- Sixteen percent of all nonviolent crime reported were cleared in 1981 and juveniles accounted for 33 percent of these clearances.

TOTAL ARREST SUMMARY

- There were 360,416 persons arrested in 1981, which represents a 2 percent increase over 1980.
- The arrest rate for 1981 increased 2 percent to 49 persons arrested per every 1,000 inhabitants.
- Adult arrests increased 6 percent to 243,430 and juvenile arrests decreased 3 percent to 116,986 in 1981.
- Adults accounted for 67 percent and juveniles 33 percent of the total state arrests.
- Persons under 21 years of age accounted for 49 percent of all arrests.
- Males accounted for 83 percent and females 17 percent of the total persons arrested during the year.
- Seventy-one percent of the total persons arrested in 1981 were white, 28 percent were black, the remaining one percent were other races.

POLICE OFFICERS KILLED AND ASSAULTED SUMMARY

- Three police officers were killed in the line of duty in 1981.
- There were 4,379 police officers assaulted during the performance of duty in 1981.
- One out of every four municipal police officers in New Jersey was assaulted during the year 1981.

CRIME IN NEW JERSEY, UNITED STATES AND THE NORTHEAST REGION

CRIME INDEX

- New Jersey decreased 3 percent, while the United States and the Northeast Region remained stable with no change.

VIOLENT CRIME

- New Jersey and the Northeast Region increased 5 percent, while the United States increased one percent.

NONVIOLENT CRIME

- New Jersey decreased 4 percent, the Northeast Region decreased one percent and the United States remained stable.

MURDER

DEFINITION

Murder is defined as the unlawful killing of a human being with malice aforethought. Any death due to a fight, argument, quarrel, assault, or commission of a crime is included. This Index offense is counted by police on the basis of their investigation without regard to findings of a court, jury or the decision of a prosecutor. Attempts to kill and assaults to kill are scored as aggravated assaults and not as murder. Suicides, accidental deaths, and justifiable homicides are not counted, nor reflected in the murder classification.

VOLUME/RATE

- There were 541 murders reported to law enforcement agencies of the state in 1981, a 7 percent increase compared to 1980.
- Murders accounted for one-tenth of one percent of the reported Index offenses.
- The murder rate remained the same at 1 victims per 1,000 inhabitants.

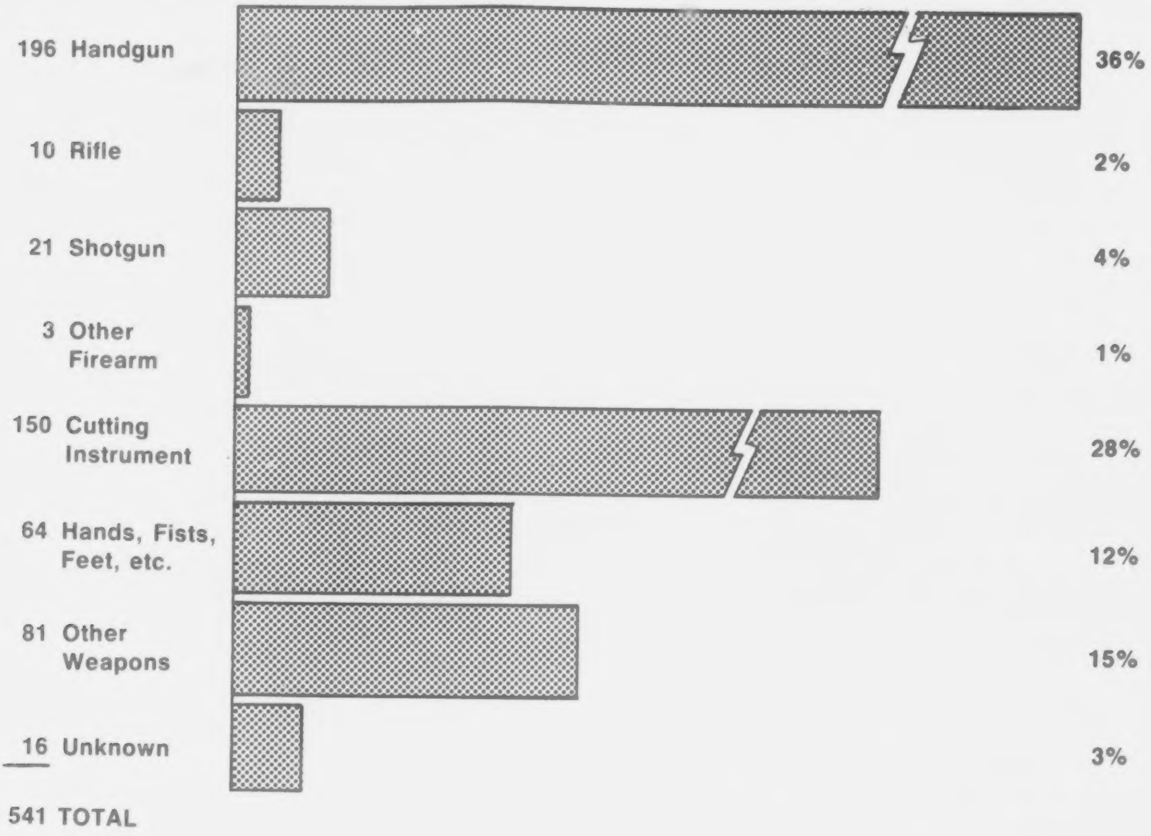
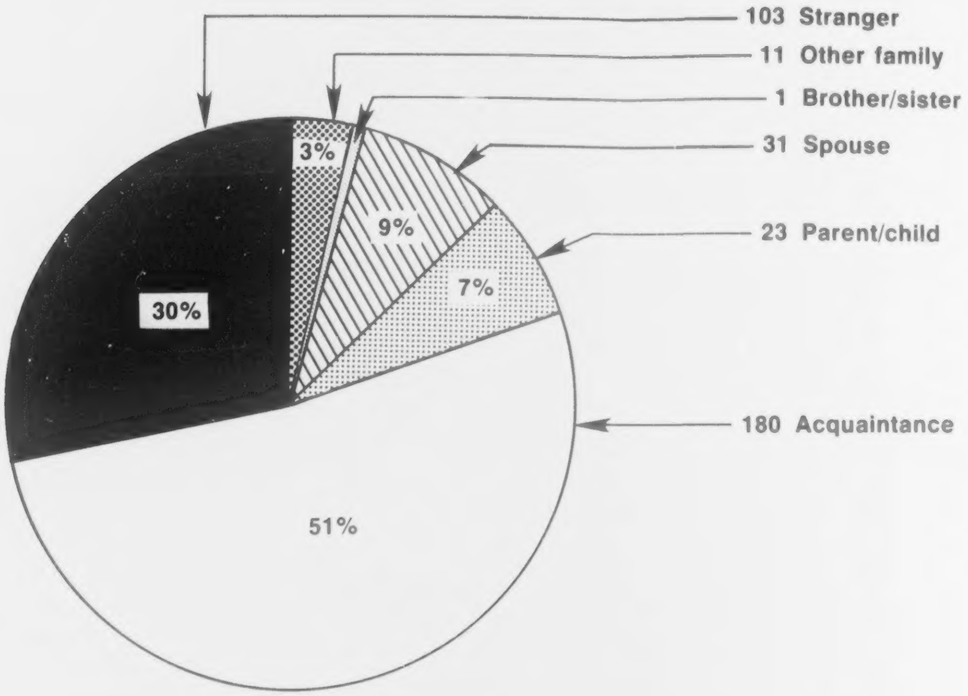
- January and July recorded the highest number of murders, with 64 and 53 respectively; September and October were the lowest reported with 34 each.
- Thursday was the highest day of the week for reported murders, with 101 offenses.
- The age group 20-34 accounted for 41 percent of all murder victims.
- Blacks were victims in 55 percent of the reported murders, the remaining 45 percent were white, and males accounted for 75 percent of the murders.

MURDER—Distribution by Type of Weapon



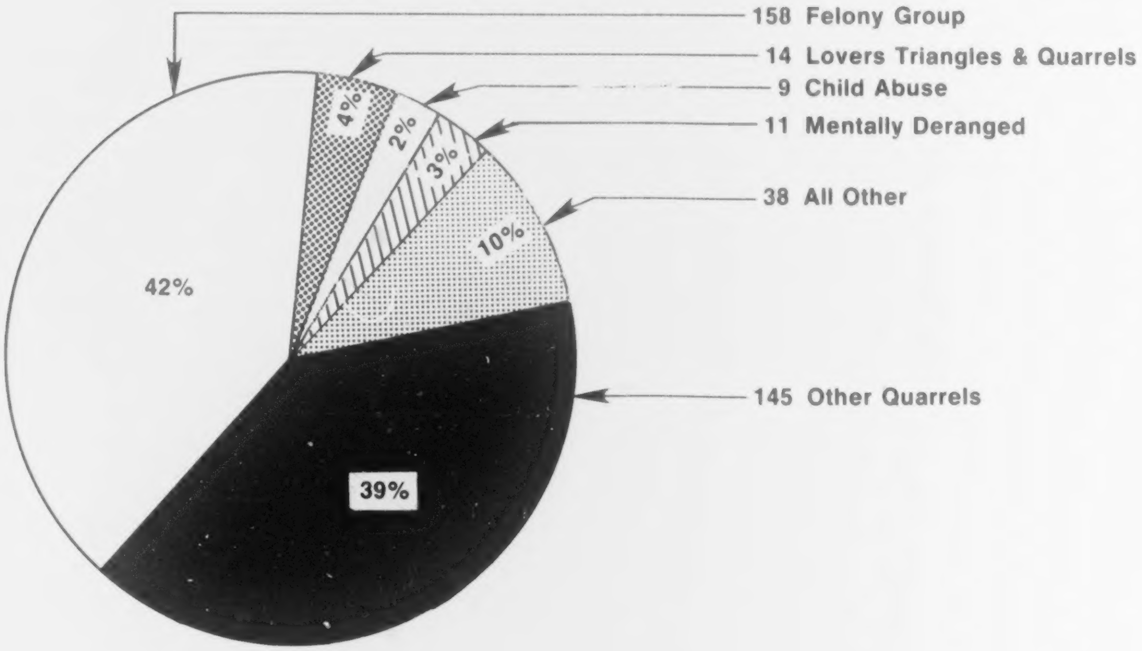
- Firearms were used in 44 percent of all reported murders. Knife or cutting instruments accounted for 29 percent; other weapons, i.e., clubs, hammers, poison, arson, etc., accounted for 15 percent. Physical force, such as hands, fists and feet were used in the remaining 12 percent of the murder offenses where the weapon was known.
- Forty-seven percent of the reported murders occurred in private residences, 29 percent on highways or streets, and 9 percent in commercial houses.
- Seventy percent of the **known** murder victims were either acquainted or related to their assailant; this is the lowest percentage since 1970 (64%).
- Nine percent of the known murders were the result of spouse killing spouse, and 16 percent of the perpetrators were identified as members of the immediate family.

RELATIONSHIP OF KNOWN VICTIMS TO OFFENDER (1)



(1) Additionally there were 192 murders in which the relationship could not be determined.

KNOWN MURDER CIRCUMSTANCES (1)



(1) Additionally there were 166 murders in which the circumstances could not be determined.

- Felony murders accounted for 42 percent of reported murders. This is the first time the felony group accounted for more murders than the quarrels or altercations, which accounted for 39 percent.
- Robbery was the motive in 25 percent of the reported murders; this is the highest percentage since this statistic has been collected starting in 1970.
- The total value of property stolen as a result of murder amounts to $46,332.00.

ARRESTS/CLEARANCES

- A total of 477 persons were arrested for murder in 1981, a 10 percent increase over 1980.
- Adult murder arrests increased 11 percent (from 376 to 418) and juvenile arrests increased 2 percent (from 58 to 59).
- The 18-22 age group accounted for 24 percent of persons arrested for murder.
- Males accounted for 91 percent and females 9 percent of those arrested for murder.
- Sixty-three percent of persons arrested for murder were black and 37 percent were white.
- Sixty-nine percent of the murders were solved in 1981 (374 out of 541). Juvenile clearances accounted for 9 percent of the murders in 1981.

FORCIBLE RAPE

Definition

Forcible rape is defined as the carnal knowledge of a female forcibly and against her will. All assaults and attempts to rape are counted, but carnal abuse, rape without force (statutory rape) and other sex offenses are not included.

VOLUME/RATE

- There were 2,371 reported rapes in 1981, an increase of 5 percent over 1980.
- Forcible rape accounted for one-half of one percent of the total Crime Index and 5 percent of all violent crimes.
- For every 1,000 persons in the state, there were .3 forcible rape victims. When calculated on the estimated 1978 female population, the forcible rape rate increases to .6 per 1,000 females.
- Seventy-seven percent of the rapes were forcible, the remaining 23 percent were assaults or attempts to rape.

TREND

Year	Number of Offenses	Rate per 1,000 Population
1981	2,371	0.3
1980	2,260	0.3
Percent change	+ 5%	n/c

- The total value of property stolen as a result of rape, amounted to $52,596.00.

ARRESTS/CLEARANCES

- A total of 1,237 persons were arrested during 1981, a 6 percent increase over 1980.
- Adult forcible rape arrests increased one percent, while juvenile arrests increased 27 percent over 1980.
- Fifty-six percent of all persons arrested for forcible rape were under the age of 25.
- Fifty-eight percent of the arrested perpetrators were black and 42 percent were white.
- Fifty-one percent of all forcible rape cases were solved during 1981. Juveniles accounted for 15 percent of those cases cleared.

ROBBERY

Definition

Robbery is defined as the felonious and forcible taking of the property of another, against his will, by violence or by putting him in fear. The element of personal confrontation is always present in this crime. Under the program, all assaults or attempts to rob are included. Effective January 1, 1974, the robbery subheadings were changed from armed and strong arm, to robbery by firearm, knife or cutting instruments, other dangerous weapon and strong arm (hands, fist, feet, etc).

VOLUME/RATE

- There were 24,753 robbery offenses in 1981, an 11 percent increase compared to 1980.
- Robbery accounted for 5 percent of the total Crime Index and 53 percent of all violent crime.
- The robbery rate was 3.4 victims per 1,000 population.

AGGRAVATED ASSAULT

Defintion

Aggravated assault, as defined under the New Jersey Uniform Crime Reporting System, is an attempt to offer, with unlawful force or violence, to do serious physical injury to another. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could result in serious personal injury if the crime was successfully completed.

VOLUME/RATE

- There were 18,991 aggravated assaults reported during 1981, a decrease of 2 percent when compared to 1980.
- Aggravated assaults accounted for 4 percent of the Crime Index and 41 percent of all violent crimes.
- The rate for aggravated assault remained at 2.6 per 1,000 population.

TREND

LARCENY-THEFT

Definition

The definition of larceny-theft, as provided under this program, is the taking of the property of another with intent to deprive him of ownership. All larcenies and thefts resulting from pocket-picking, purse-snatching, shoplifting, larcenies from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc., are included here. Embezzlement, unlawful conversions, larceny by bailee, frauds or bad checks are not included.

VOLUME/RATE

- There were 231,895 larcenies reported in 1981, a one percent decrease compared to 1980.
- Larcency accounted for 51 percent of the total Crime Index and 56 percent of all nonviolent crime.
- The larceny victimization rate remained at 32 for every 1,000 population in 1981.

TREND

MOTOR VEHICLE THEFT

Definition

In Uniform Crime Reporting, motor vehicle theft includes all thefts and attempted thefts of a motor vehicle. This includes the theft or attempted theft of a motor vehicle which is defined as a self-propelled vehicle that runs on the surface and not on rails. This definition excludes taking a motor vehicle for temporary use, such as a family situation, or unauthorized use by others having lawful access to the vehicle. The motor vehicle theft category includes the subheadings of autos, trucks and buses, and other vehicles (motorcycles, mo-peds, etc.)

VOLUME/RATE

- There were 50,576 motor vehicle thefts reported in 1981, a 6 percent decrease compared to 1980.
- Motor vehicle thefts accounted for 11 percent of the total Crime Index and 12 percent of the nonviolent crime.
- The motor vehicle theft rate of 6.9 victims per 1,000 population represents a 5 percent decrease compared to 1980.

TREND

ARSON

Definition

Arson is defined by the New Jersey Uniform Crime Reporting Program as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

Only fires determined through investigation to have been willfully or maliciously set are classified as arsons. Fires of suspicious or unknown origins are excluded.

VOLUME/RATE

- There were 5,399 reportable arsons in 1981, which represents an 8 percent decrease from 1980—(1980 was the first reportable year for arson data).
- The arson rate decreased on-tenth of one percent at 0.7 victims per 1,000 population.

PART II—ARREST SUMMARY

SIMPLE ASSAULT

Definition

Simple assault, as defined under the New Jersey Uniform Crime Reporting System, is an assault or an attempted assault where no weapon is used and which does not result in serious or aggravated injury to the victim.

- There were 30,295 simple assault arrests in 1981, representing a 5 percent decrease when compared to 1980.
- Of the total, 28 percent were juveniles and 72 percent were adults.
- Males accounted for 83 percent and females 17 percent of the persons arrested for assault.
- Seventy-one percent of the persons arrested were white, and 29 percent were black.

ARSON

Definition

Under this program, arson is defined as the willful or malicious burning, or attempts to burn, with or without intent to defraud; a dwelling house, building, ship or vessel, motor vehicle or aircraft, contents of building, personal property of another, etc.

- There were 898 arrests reported for arson offenses; a 2 percent increase over 1980.
- Juveniles accounted for 56 percent and adults 44 percent of persons arrested for arson.
- Ninety percent of the total arson arrests were males, while 10 percent were females.
- Seventy-five percent of the persons arrested were white, and 25 percent were black.

FORGERY AND COUNTERFEITING

Definition

The definition of forgery and counterfeiting is the making, altering, uttering or possessing or attempting to make, alter, utter or possess, with intent to defraud, anything false which is made to appear true.

- There were 1,335 arrests reported by the law enforcement agencies of the state for forgery or counterfeiting during the year. This represents a 16 percent increase compared to 1980.
- Adults accounted for 90 percent and juveniles accounted for 10 percent of the arrests.
- Males accounted for 75 percent of the arrests and females 25 percent.
- Sixty-two percent of the persons arrested were white, 37 percent were black and less than ½ of one percent were other races.

FRAUD

Definition

In Uniform Crime Reporting, fraud is the fraudulent conversion and obtaining money or property by false pretenses. This includes bad checks, confidence games, etc., except forgeries and counterfeiting.

- There were 7,602 arrests reported during the year for fraud, a 5 percent decrease compared to 1980.
- Adult arrests represented 96 percent and juveniles 4 percent of the persons arrested.
- Males accounted for 58 percent and females 42 percent of the persons arrested for fraud.
- Seventy percent of the persons arrested were white, and 30 percent were black.

EMBEZZLEMENT

Definition

The definition of embezzlement is the misappropriation or misapplication of money or property entrusted to one's care, custody or control.

- There were 120 persons arrested for embezzlement; a 31 percent decrease compared to 1980.
- Ninety-six percent of those persons arrested were adults, and 4 percent were juveniles.
- Males accounted for 68 percent and females 32 percent of the persons arrested for embezzlement.
- Seventy-four percent of the persons arrested were white, and 26 percent were black.

STOLEN PROPERTY
(Buying, Receiving, Possessing)

Definition

Included in this class are all offenses of buying, receiving, and possessing stolen property, as well as all attempts to commit any of these offenses.

- In 1981, there were 10,612 arrests reported for stolen property—an increase of one percent over 1980.
- Of the total, 65 percent were adults and 35 percent were juveniles.
- Eighty-nine percent were males, and 11 percent were females.
- Fifty-six percent of the persons arrested were white, and 44 percent were black.

MALICIOUS MISCHIEF

Definition

Malicious mischief is defined as the willful or malicious destruction, injury, disfigurement, or defacement of property without consent of the owner or persons having custody or control.

- There were 14,209 arrests for malicious mischief, a decrease of 7 percent compared to 1980.
- Juveniles accounted for 65 percent, and adults 35 percent of persons arrested for malicious mischief.
- Males accounted for 91 percent and females 9 percent of the arrests.
- Eighty percent of the persons arrested were white, and 20 percent were black.

WEAPONS; CARRYING, POSSESSING, etc.

Definition

Under the program, this offense includes all the violations of regulations or statutes controlling the carrying, using, possessing, furnishing, and manufacturing of deadly weapons or silencers, and attempts.

- There were 8,058 arrests reported for weapons offenses; an 8 percent increase compared to 1980.
- Of the total, 75 percent were adults, and 25 percent were juveniles.
- Males accounted for 94 percent and females 6 percent of those arrested.
- Sixty-two percent of those arrested were white, and 38 percent were black.

PROSTITUTION AND COMMERCIALIZED VICE

Definition

Prostitution and commercialized vice are sex offenses of a commercialized nature and attempts. Included in this category are prostitution, keeping a bawdy house, procuring or transporting women for immoral purposes, etc.

- There were 949 arrests reported for prostitution and commercialized vice during 1981. This represents a 25 percent increase over 1980.
- Ninety-four percent of the arrests were adults, with the remaining 6 percent being juveniles.
- Females accounted for 75 percent and males 25 percent of the arrests.
- Sixty-four percent of those arrested were black and 36 percent were white.

SEX OFFENSES

Definition

Sex offenses, as defined under the New Jersey Uniform Crime Reporting Program, does not include forcible rape, prostitution and commercialized vice. Included in this class are offenses against chastity, common deceny, morals, and the like; attempts are also included.

- There were 1,778 sex offense arrests during 1981, representing an increase of one percent when compared to 1980.
- Adults accounted for 70 percent, and juveniles 30 percent of the arrests.
- Ninety-six percent were males, and 4 percent were females.
- Seventy-four percent of the persons arrested were white, and 26 percent were black.

DRUG ABUSE VIOLATIONS

Definition

Under the program, drug abuse violations are defined as the unlawful sale/manufacturing, possession/use of the below listed narcotics and drugs:

a. Opium or Cocaine and their derivatives (morphine, heroin, codeine)

b. Marijuana, hashish, etc.

c. Synthetic narcotics—manufactured narcotics which can cause true drug addiction—(demerol, methadones)

d. Other—dangerous non-narcotic drugs (barbiturates, amphetamines, hallucinogens).

- There were 34,023 arrests reported by the law enforcement agencies of the state for drug abuse violations; a 6 percent increase compared to 1980.
- Adults accounted for 77 percent and juveniles 23 percent of the arrests.
- Persons under the age of 21 accounted for 47 percent of the drug abuse arrests.
- Males accounted for 86 percent of the arrests while females accounted for the remaining 14 percent.
- Seventy-one percent of the persons arrested were white, and 29 percent were black.
- Arrests for possession/use of drugs accounted for 84 percent of the arrests, and the remaining 16 percent were for the sale/manufacturing of drugs.
- Arrests for marijuana/hashish represented 77 percent of the possession/use category and 48 percent of the sale/manufacturing category. Overall, they accounted for 72 percent of the total drug abuse violation arrests.
- Arrests for the sale/manufacturing of drugs increased 23 percent in 1981, compared to 1980.

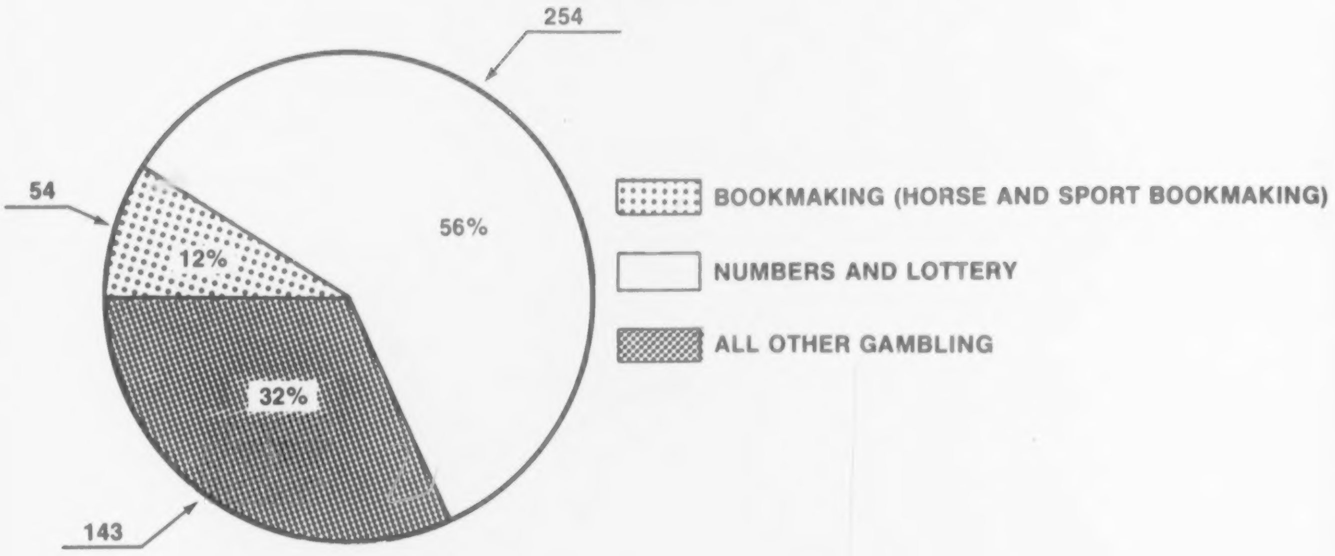
GAMBLING

Definition

Gambling violations are defined as the promoting, permitting, or engaging in illegal gambling.

- There were 451 gambling arrests reported during 1981, resulting in a 17 percent decrease compared to 1980.
- Ninety-eight percent of the arrests were adults, and 2 percent were juveniles.
- Males represented 90 percent, and females 10 percent of the gambling arrests.
- Fifty-eight percent of the persons arrested were white, and 42 percent were black.

1981
ANALYSES OF GAMBLING ARRESTS
TOTAL ARRESTS 451



OFFENSES AGAINST FAMILY AND CHILDREN

Definition

The definition of offenses against family and children, is the non-support, neglect, desertion, or abuse of family and children.

- There were 3,962 arrests for offenses against family and children during 1981, representing an increase of 11 percent from the previous year.
- All arrests for this offense were adults.
- Males accounted for 92 percent and females 8 percent of the arrests.
- Fifty-nine percent of the persons arrested were white, and 41 percent were black.

DRIVING UNDER THE INFLUENCE

Definition

Under the New Jersey Uniform Crime Reporting Program, the offense of driving under the influence is defined as the driving or operating of any motor vehicle while drunk or under the influence of alcohol or narcotics.

- There were 31,751 arrests reported for driving under the influence in 1981; an increase of 4 percent compared to 1980.
- Ninety-eight percent of the arrests were adults and only 2 percent were juveniles.
- Males accounted for 90 percent of the arrests, while females accounted for the remaining 10 percent.
- Eighty-nine percent of the persons arrested were white and 11 percent were black.

LIQUOR LAWS

Definition

Included in this category are state or local liquor law violations, with the exception of "driving under the influence."

- There were 10,458 arrests reported for liquor law violations; an increase of 18 percent over the previous year.
- Juveniles were responsible for 56 percent of the arrests, while the remaining 44 percent were adults.
- Males accounted for 82 percent of the liquor law arrests, while females accounted for the remaining 18 percent.
- Ninety-three percent of the persons arrested were white, and 7 percent were black.

DISORDERLY CONDUCT

Definition

In this category are placed all charges of committing a breach of the peace (disorderly person).

- There were 41,086 arrests for disorderly conduct in 1981; a decrease of 2 percent compared to 1980.
- Sixty-five percent of the arrests were adults while the remaining 35 percent were juveniles.
- Males accounted for 84 percent and females 16 percent of the disorderly conduct arrests.
- Seventy-eight percent of the persons arrested were white, and 22 percent were black.

FAILURE TO GIVE GOOD ACCOUNT

Definition

In this category are persons charged with vagabondage, begging, loitering, etc.

- There were 515 arrests in this category during the year; a 28 percent decrease compared to 1980.
- Juveniles accounted for 62 percent of the arrests while adults accounted for the remaining 38 percent.
- Males represented 85 percent and females 15 percent of the arrests in this category.
- Seventy-seven percent of the persons arrested were white, and 23 percent were black.

ALL OTHER OFFENSES

Definition

Included in this category are all violations of state and local laws, except those offenses that can be categorized into one of the specific crime classifications previously mentioned.

- There were 65,232 arrests reported for all other offenses during 1981; a 6 percent increase over 1980.
- Adults accounted for 72 percent and juveniles 28 percent of persons arrested for all other offenses.
- Eighty-three percent of the arrests were males, while 17 percent were females.
- Seventy-five percent of the persons arrested were white and 25 percent were black.

CURFEW AND LOITERING LAW VIOLATIONS

Definition

In this category are juvenile arrests made for violations of local curfew or loitering ordinances.

- There were 3,174 arrests reported for curfew and loitering law violations during the year; this represents a 9 percent increase over 1980.
- Males represented 75 percent and females 25 percent of the arrests.
- Seventy-nine percent of the persons arrested were white, and 21 percent were black.

RUNAWAYS

Definition

For Uniform Crime Reporting purposes, this category is limited to juveniles taken into protective custody, under provisions of local statutes, as runaways.

- There were 6,509 runaway arrests reported in 1981; a 7 percent decrease compared to 1980.
- Females accounted for 56 percent and males accounted for 44 percent of the arrests.
- Eighty percent of the persons arrested were white, and 20 percent were black.

SECTION IV

COUNTY
OFFENSE AND
SUPPLEMENTARY DATA
OVERVIEW

ATLANTIC COUNTY

VOLUME/RATE

- A total of 21,943 Crime Index offenses were reported to the police of Atlantic County during 1981, a one percent increase over 1980.
- Violent crimes increased 21 percent while the nonviolent crime category decreased one percent.
- The Crime Rate for Atlantic County was recorded at 113.0 victims for every 1,000 inhabitants, a decrease of 2 percent compared to the previous year.
- Pocket-picking in the county increased 128 percent and highway robbery increased 41 percent compared to 1980.
- Theft of motor vehicle parts and accessories decreased 23 percent compared to 1980, and motor vehicle thefts decreased 17 percent.
- Total value of property stolen in Atlantic County amounted to $21.4 million, of which 32 percent was recovered.
- The highest frequency of Index Crimes for Atlantic County was during the month of August, while February recorded the lowest.

ARRESTS/CLEARANCES

- There were 16,798 persons arrested during the year, a 15 percent increase when compared to 1980.
- Adult arrests increased 20 percent, and juvenile arrests decreased one percent.
- Eighteen percent of all Index Crimes were solved during 1981 and 26 percent of those cases solved were cleared by the arrest of juveniles.

BERGEN COUNTY

VOLUME/RATE

- There were 38,547 Index offenses reported in Bergen County during 1981, revealing a 9 percent decrease when compared to 1980.
- Violent crime increased 5 percent and nonviolent crime decreased 10 percent.
- The Crime Rate per 1,000 population was 45.6, a decrease of 9 percent.
- Forcible rape increased 71 percent, from 51 offenses in 1980 to 87 offenses in 1981; robbery of commercial houses increased 43 percent and of gas stations increased 63 percent.
- Both residential burglary and non-residential burglary decreased; 27 percent and 22 percent respectively.
- The dollar loss from the commission of Index crimes totaled $45.6 million, with 23 percent being recovered.
- Index crime frequency was at its highest during the month of July; the lowest month was December.

ARRESTS/CLEARANCES

- Total arrests for 1981 were 31,758 persons, up 10 percent over the previous year.
- Adult arrests increased 13 percent, while juvenile arrests registered a 5 percent decrease.
- A clearance rate for Index offenses was recorded at 16 percent, with juveniles accounting for 28 percent of the total clearances.

BURLINGTON COUNTY

VOLUME/RATE

- Law enforcement agencies reported 15,823 Index offenses during the year, an increase of one percent.
- Violent crime decreased 4 percent while the nonviolent crime group increased one percent.
- The Crime Rate was recorded at 43.6 per 1,000 population; no appreciable change compared to 1980.
- Reported shoplifting increased 28 percent and burglary of non-residences increased 8 percent.
- Highway robbery decreased 26 percent, purse-snatching decreased 21 percent and motor vehicle theft decreased 10 percent.
- Property stolen as a result of Index crimes, amounted to $14.7 million, of which 26 percent was recovered.
- August recorded the highest frequency of Index crimes and May the lowest.

ARRESTS/CLEARANCES

CRIME INDEX FOR POPULATION GROUPS—1981

The presentation of crime statistics by population groups was made for the purpose of projecting, for consideration, the relative crime experience of communities of varying populations. Although the individual municipalities within the various groups may be geographically separated, their inclusion into a specific group was predicted by the similarity in population with the other municipalities within the group. Municipalities within the same group may differ widely when all factors are considered, but they do share the common bond of population size. The grouping of communities in this manner allows recognition of variances in the crime volumes, rates and clearances between the established groups.

Set forth below are the established municipal groupings as used in this section:

POPULATION GROUPS	TOTAL CRIME INDEX	Murder	Rape	Robbery	Aggravated Assault	Burglary	Larceny-Theft	Motor Vehicle Theft
GROUP I								
4 Municipalities over 100,000	85,614	268	840	12,155	6,194	23,502	27,945	14,710
Population–796,951								
Rate per 1,000 Inhabitants	107.4							
Percent Index Offenses Cleared	18.4							
GROUP II

URBAN—SUBURBAN—RURAL CRIME
5 YEAR COMPARISON
1977 through 1981 SUMMARY ANALYSIS

OFFENSES	URBAN			SUBURBAN			RURAL		
	1977	1981	Percent Change	1977	1981	Percent Change	1977	1981	Percent Change
Murder	318	453	+43	55	55	—	34	33	− 3
Forcible Rape	1,028	1,670	+63	377	508	+35	130	193	+49
Robbery	11,231	21,977	+97	1,686	2,360	+40	301	416	+38
Aggravated Assault	9,644	13,470	+40	3,049	4,323	+42	879	1,198	+36
Burglary	60,738	76,049	+25	35,530	41,823	+18	8,996	10,406	+16
Larceny-Theft	100,998	119,893	+19	87,921	93,841	+ 7	13,059	18,161	+39
Motor Vehicle Theft	26,911	36,297	+35	9,175	12,566	+37	1,390	1,713	+23
Total Index	210,868	269,809	+28	137,793	155,476	+13	24,789	32,120	+30
Violent Crime	22,221	37,570	+69	5,167	7,246	+40	1,344	1,840	+37
Nonviolent Crime	188,647	232,239	+23	132,626	148,230	+12	23,445	30,280	+29

- During the five year period, rural communities experienced the largest percentage change in Index offenses, an increase of 30 percent.
- Urban communities experienced an increase of 28 percent over the same period.
- The largest increase in violent crime occurred in urban communities, a 69 percent increase.
- Rural communities experienced the largest increase in the nonviolent crime category, a rise of 29 percent.
- Although robbery increased significantly in all three character groups, the largest increase of 97 percent occurred in urban communities.

URBAN
NUMBER—RATE—DISTRIBUTION
1980-1981

Municipalities: 153 **Population: 3,507,404**

Nonviolent Crime	241,866	232,239	− 4	68.8	66.2	− 4	56.8	56.5	− 1

- There were 269,809 Index offenses reported in municipalities of urban character during 1981; this represents a decrease of 3 percent compared to 1980.
- Fifty-nine percent of all Index crime occurred in urban areas; no change when compared to 1980.
- Violent crime in urban communities increased 5 percent and accounted for 81 percent of the state's total violent crime.
- Nonviolent crime decreased 4 percent and accounted for 57 percent of the reported nonviolent crime in the state.
- The Crime Rate decreased 3 percent to 76.9 victims for every 1,000 persons.

SUBURBAN
NUMBER—RATE—DISTRIBUTION
1980-1981

Municipalities: 246 **Population: 3,051,736**

Nonviolent Crime	151,599	148,230	− 2	50.3	48.6	− 3	35.6	36.1	+ 1

- During 1981, Index crimes in suburban areas decreased 2 percent to 155,476.
- Thirty-four percent of reported Index crimes occurred in suburban communities.
- Violent crime increased 4 percent and represented 16 percent of the state's violent crime.
- Nonviolent crime decreased 2 percent and accounted for 36 percent of the nonviolent crime in the state.
- The Crime Rate was calculated at 51.0 victims per 1,000 inhabitants; a decrease of 3 percent compared to 1980.

RURAL
NUMBER—RATE—DISTRIBUTION
1980-1981

Municipalities: 168 **Population: 805,018**

OFFENSES	NUMBER			CRIME RATE/1,000			PERCENT OF STATE TOTAL

Total Index	34,047	32,120	– 6	42.2	39.9	– 6	7.2	7.0	– 3
Violent Crime	1,723	1,840	+ 7	2.1	2.3	+10	3.9	3.9	—
Nonviolent Crime	32,324	30,280	– 6	40.1	37.6	– 6	7.6	7.4	– 3

- In 1981, there were 32,120 Index crimes reported in rural municipalities, a 6 percent decrease compared to 1980.
- Seven percent of the state's Index crime occurred in rural communities.
- Violent crime increased 7 percent and accounted for 4 percent of the state's total violent crime.
- Nonviolent crime decreased 6 percent and represented 7 percent of the nonviolent crime in the state.
- The Crime Rate decreased 6 percent to 39.9 victims per 1,000 inhabitants.

SECTION VI

CRIME IN THE CITIES

CRIME IN THE CITIES

This section will deal with serious crimes reported in the large urban cities of the state. These cities represent twenty (20) percent of the population and historically account for one third of the reported Crime Index of the state.

This analysis involves the latest ten year period (1972-1981) and endeavors to further identify crime trends in these urban areas.

The cities included in this analysis have been categorized as urban municipalities, (i.e., densely populated with extensive development) by the New Jersey Department of Community Affairs, Division of State and Regional Planning, Bureau of Statewide Planning.

The criteria used in the selection of these cities were (1) to be classified as urban character and (2) have a population of 50,000 or more inhabitants.

For further comparative analysis, the urban cities were subdivided into two distinct groupings.

Group number one consisted of the state's six largest urban centers with populations of 80,000 or over, and categorized as the "Major Urban."

The second group included the "Major Urban" and the additional urban communities with populations of 50,000 or more inhabitants, and referred to as the "Urban Municipalities."

MAJOR URBAN

- Camden
- Elizabeth
- Jersey City
- Newark
- Paterson
- Trenton

THE URBAN MUNICIPALITIES

- Bayonne
- Camden
- Clifton
- Dover Twsp.
- East Orange
- Elizabeth
- Irvington Town
- Jersey City
- Newark
- Passaic
- Paterson
- Trenton
- Union City
- Vineland
- Woodbridge

The accompanying table reflects percent changes in the state's "major urban," and the 15 urban municipalities Crime Index for the years 1972-1981.

CRIME IN THE CITIES
Summary

Distribution

- Six major urban centers—Camden, Newark, Jersey City, Trenton, Paterson and Elizabeth—collectively represent 13 percent of New Jersey's total population. These same urban centers, during the period 1972 through 1981 accounted for 24 percent of the state's total crime.
- The six centers from 1972 through 1981 accounted for 52 percent of all violent crime and 21 percent of the nonviolent crimes in the entire state.
- The 15 urban municipalities represent 20 percent of the state's total population.
- For the period 1972 through 1981, these 15 urban municipalities accounted for 32 percent of New Jersey's total Index, 61 percent of all violent crime, and 30 percent of the state's nonviolent crime.
- Nearly 7 out of every 10 robberies reported occurred in the "Urban 15" cities during this ten year period.

Percent Change

- During the ten year period (1972-1981), the Crime Index in New Jersey has increased 62 percent, while the "Urban 15" cities increased 43 percent and the six major urban cities increased 30 percent.
- Violent crime in the state increased 70 percent, the 15 urban cities increased 57 percent and the six major cities increased 49 percent.
- Nonviolent crime in the state increased 61 percent, and "Urban 15" increased 40 percent and the six major cities increased 26 percent.

The accompanying table reflects the percent distribution of major urban and "Urban 15" crime within the state for the years 1972-1981.

COMPARATIVE CRIME INDEX DISTRIBUTION FOR STATE AND URBAN CITIES 50,000 POPULATION AND OVER
1972–1981

STATE AND URBAN CITIES	Murder	Forcible Rape	Robbery	Aggravated Assault	Burglary	Larceny Theft	Motor Vehicle Theft	Crime Index Total	Violent Crime Total	Nonviolent Crime Total

STREET CRIME

There has never been a clear-cut definition for street crime within the criminal justice system. The nation's clearing house for the collection and dissemination of criminal statistics, the Federal Bureau of Investigation, has no criteria in the categorization of specific crimes to be designated or defined as "street crimes." More and more this media term has been confused with the violent crime group of murder, forcible rape, robbery, and aggravated assault.

Although any particular crime can and does occur on the street, this analysis, because of reporting constraints within the Uniform Crime Reporting System, is limited to defining street crimes as those offenses which occur, or are most likely to occur, on streets, highways, parking lots, etc. These crimes include highway robbery, purse-snatching, larceny from autos, larceny of auto parts and accessories, larceny of bicycles, and motor vehicle thefts. All are crimes against property and only one, highway robbery, falls in the violent crime group.

- During the ten year period 1972-1981, the "Urban 15" cities accounted for 35 percent of the street crimes in the state.
- Nearly 8 out of every 10 highway robberies occurred in the "Urban 15" during the ten year period.
- Over half of all motor vehicle thefts during the survey span, occurred in these 15 urban municipalities.
- Fifty-four percent of all purse-snatchings were perpetrated in the "Urban 15" cities.
- Street crime increased 35 percent between 1972-1981.

The accompanying table reflects percent distribution of street crime for the "Urban 15" cities for the years 1972-1981.

STREET CRIME TRENDS

SECTION VIII

NEW JERSEY
POLICE EMPLOYEE DATA

POLICE EMPLOYEE DATA

The Uniform Crime Reporting Program of New Jersey incorporates the collection of pertinent data relating to the police of the state. Information regarding police employee strength, and distribution are discussed in this section.

Individual listings of full-time state, county, university and college police departments are shown in tables following the narrative portion of this section. Listings of municipal police departments will be found in the section entitled "New Jersey Demographic Section."

The determination of police strength for any given area or municipality should be a subject for serious consideration. Such consideration, however, should be based on the numerous factors which create the need for police services. For example, the increased need for police service in a municipality which has a highly mobile or seasonal population, differs from a municipality which has a relatively stable population. Some other factors, discussed elsewhere in this publication, relate to size, density of population, geographic location, character, and proximity to metropolitan areas. The tables and charts shown in this section should not be interpreted as recommended strength for any given municipality.

TOTAL POLICE EMPLOYEES

Total police employees are defined at the total number of full-time police officers and civilian police employees (clerks, dispatchers, mechanics, etc.) employed by all law enforcement agencies in the state.

- During 1981 there were 33,428 full-time police employees in New Jersey. This represents an insignificant change compared to 1980.
- Seventy-six percent were sworn officers and the remaining 24 percent were civilian employees.

TREND

Year	Total Police Officers	Total Civilian Employees	Total Police Employees
1980	25,089	8,348	33,437
1981	25,454	7,974	33,428
Percent change	+ 1%	- 4%	n/c

MUNICIPAL POLICE EMPLOYEES

This category consists of the number of police employees, including civilian personnel, employed full-time by municipalities of the state.

- During 1981, there were 19,823 municipal police employees, no change compared to 1980.
- There were 2.7 municipal police employees for every 1,000 inhabitants of the state.

TREND

Year	Number of Police Employees	Rate per 1,000 Population
1980	19,823	2.7
1981	19,823	2.7
Percent change	n/c	n/c

- Essex County reported the largest increase in municipal police employees, an increase of 9 percent (249 employees).
- Atlantic County recorded the highest police employee rate; 4.6 per 1,000 population. (This rate is computed on the static population and does not take into account the large influx of seasonal and recreational population).
- Hunterdon County recorded the lowest police employee rate of 1.3 per 1,000 population.

MUNICIPAL CIVILIAN POLICE EMPLOYEES

The personnel of each department differ as to the demands and responsibilities placed before them. Many police officers are fully occupied with clerical tasks and are not free to perform active police duties. Employing civilians in police departments to perform clerical duties is in line with the thinking of many police administrators who recommend the use of civilians in this capacity, thus freeing the sworn personnel for actual police related services.

- There were 2,617 civilian police employees in 1981, a 7 percent decrease compared to 1980.
- Thirteen percent of all municipal police employees were civilian.

TREND

Year	Number of Civilian Police Employees	Percent Distribution
1980	2,826	14.3
1981	2,617	13.2
Percent change	- 7%	- 8%

MUNICIPAL POLICE OFFICERS

This includes the number of sworn police officers employed full-time by municipalities of the state. The police employee rate per 1,000 population presented here should not be construed as being recommended ratios. The determination of police strength for any municipality should be based on the numerous factors which create the need for police services. These factors, as crime, vary in type and degree from place to place. Some examples are: seasonal population, geographic location, density and composition of the population.

- There were 17,206 full-time municipal police officers in 1981, an increase of one percent compared to 1980.
- The number of full-time police officers was calculated at 2.3 per 1,000 population; no change since 1974.
- Eighty-seven percent of all municipal police employees were sworn officers.
- The largest numerical increase occurred in Essex County; an increase of 265 police officers or 11 percent.
- Camden County reported the largest decrease; a decline of 60 police officers.
- Atlantic County, with 3.7 police officers per 1,000 inhabitants, recorded the highest rate of full-time municipal police officers. (This rate is computed on the static population, and does not take into account the large influx of seasonal and recreational population.)
- The smallest number per 1,000 inhabitants was found in Hunterdon, Sussex, and Warren Counties; each with a rate of 1.2.

TREND

Year	Number of Police Employees	Rate per 1,000 Population
1980	16,997	2.3
1981	17,206	2.3
Percent change	+ 1%	n/c

COUNTY POLICE, SHERIFFS, AND PROSECUTORS

The functions of county law enforcement officers vary widely throughout the state. The operation of one sheriff's department may be limited exclusively to civil areas and the administration of the county jail, or they may be actively involved in criminal matters thoughout the county. County police departments are varied in their activities as well, in that some are responsible for enforcement throughout the county, while others may have as their primary mission the policing of county parklands. The responsibilities of county prosecutors' officers include criminal investigations, trial preparation, court presentation and special probes. Because of the difference in the types of police service rendered, rates for county law enforcmeent agencies are not presented here.

- The various county law enforcment agencies reported a total of 5,119 full-time police employees for 1981, a decrease of one percent compared to 1980.
- There were 3,774 full-time sworn police officers employed by county agencies, 74 percent of the total county police employees.
- Twenty-six percent, or 1,345 of the county police employees were civilian.

TREND

Year	Number of Police Officers	Number of Civilian Employees	Total Police Employees
1980	3,608	1,587	5,195
1981	3,774	1,345	5,119
Percent change	+ 5%	- 15%	- 1%

STATE POLICE

The New Jersey State Police is empowered to provide all phases of law enforcement throughout the state. It also renders, upon request, police services to all the law enforcement agencies in the state. No rates are used due to the variations in the nature and extent of the police services performed by the State Police.

- The New Jersey State Police reported 3,451 full-time police employees, an increase of 5 percent to 1980.
- There were 2,171 sworn police officers employed during 1981; this represents 63 percent of the total State Police employees.
- Thirty-seven percent or 1,280 employees were civilian.

TREND

Year	Number of Police Officers	Number of Civilian Employees	Total Police Employees
1980	2,094	1,200	3,294
1981	2,171	1,280	3,451
Percent Change	+ 4%	+ 7%	+ 5%

OTHER POLICE (State Agencies)

In addition to the State Police, there were seven other state agencies reporting to the System. No rates were computed due to the variations in the types of police service rendered, and their statewide jurisdictions.

- Together, these agencies reported a total of 5,035 full-time police employees, a decrease of 2 percent compared to 1980.
- Forty-six percent, or 2,303 were sworn personnel, while the remaining 54 percent were civilians.

TREND

Year	Number of Police Officers	Number of Civilian Employees	Total Police Employees
1980	2,390	2,735	5,125
1981	2,303	2,732	5,035
Percent change	- 4%	n/c	- 2%

SECTION IX

LAW ENFORCEMENT OFFICERS

KILLED AND ASSAULTED

SUMMARY

POLICE OFFICERS KILLED AND ASSAULTED

The killing or assault of a police officer has a deleterious effect on society that reaches far beyond the overt act. Such occurrences constitute an immediate threat to the well-being of the community and a serious breach of the internal security of the country. Today a young man who considers a career in law enforcement must also consider the very strong possibility of being killed or assaulted by a member of the very same society he is sworn to protect. This deplorable situation should be a subject of serious public concern, for in truth, an attack on a police officer is an attack on society. The violence directed against law enforcement officers acting in the line of duty is clearly demonstrated by the following information.

POLICE FELONIOUSLY KILLED

VOLUME

- In 1981, three police officers were killed as a result of criminal action.
- All three officers were killed by the use of firearms.
- Law enforcement cleared two of these police killings.
- Since 1967, thirty-eight police officers have been feloniously killed in the line of duty.
- On June 9, 1981, a Deputy Chief with the Essex County Sheriff's Department was killed with a 38 calibre handgun. He had just completed his tour of duty and was accosted by subjects who attempted to rob him. He declared that he was a police officer and was subsequently killed.
- On October 14, 1981, a patrolman with the Atlantic City Police Department was killed with a 9 mm handgun. This officer was pursuing an armed robbery suspect and exchanged gunfire, both the officer and the offender were killed.
- On December 21, 1981, a New Jersey State Trooper was killed after stopping a vehicle on an interstate highway. The perpetrators used a 9 mm handgun in the fatal attack on the Trooper.

TREND

Year	Police Officers Killed	Year	Police Officers Killed
1972	1	1977	-
1973	4	1978	-
1974	1	1979	5
1975	3	1980	2
1976	5	1981	3

ASSAULTS ON POLICE OFFICERS

Police assault statistics are important to the police administrator who attempts to identify the causative factors of this type of criminal activity. Many factors contribute to police assaults, and circumstances vary from place to place, it is therefore extremely difficult to identify specific reasons for these assaults. The following information illustrates the frequency of these events, and any attempt at analysis of these assaults should include consideration of the unique variables present in each jurisdiction.

VOLUME

- There were 4,850 police officers assaulted in 1981, this represents a 13 percent increase compared to 1980.
- This increase marks the end of two consecutive yearly decreases in police assaults.

TREND

Year	Total Number of Police Officers Assaulted
1980	4,279
1981	4,850
Percent Change	+ 13%

- No assault rates are computed for total police officers assaulted because of the broad field of services performed by many state and county police agencies.

ASSAULTS ON MUNICIPAL POLICE OFFICERS

VOLUME/RATE

- There were 4,379 municipal police officers assaulted during 1981, an 11 percent increase compared to the prior year.
- Twenty-seven percent (1,205) of the officers sustained physical injury.
- The assault rate for every 100 municipal police officers in 1981 is 25.5, which is a 10 percent increase over 1980.

TREND

Year	Municipal Police Officers Assaulted	Rate per 100 Police Officer
1980	3,950	23.2
1981	4,379	25.5
Percent Change	+ 11%	+ 10%

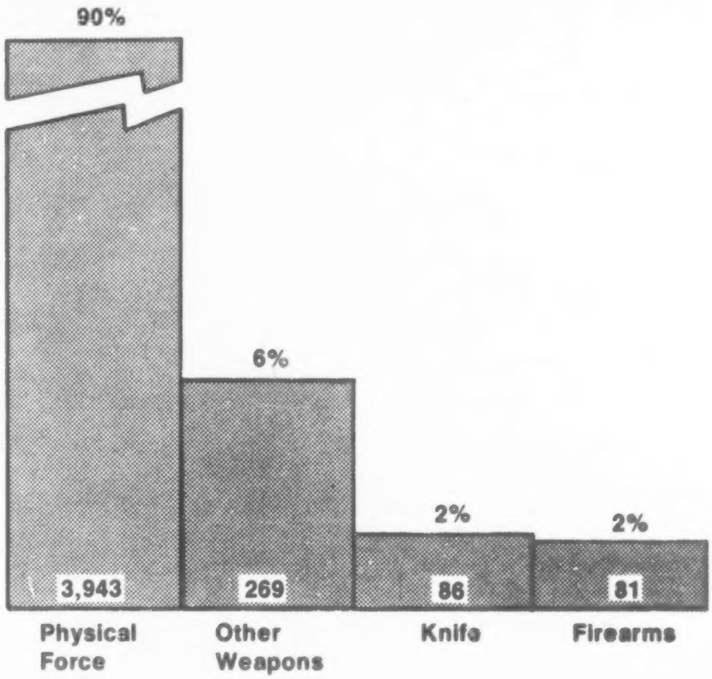
OTHER POLICE OFFICERS ASSAULTED

The following state and county law enforcement agencies are dealt with separately, and are not included when computing municipal assault rates; the services performed by these agencies vary greatly from the functions of municipal police agencies.

VOLUME

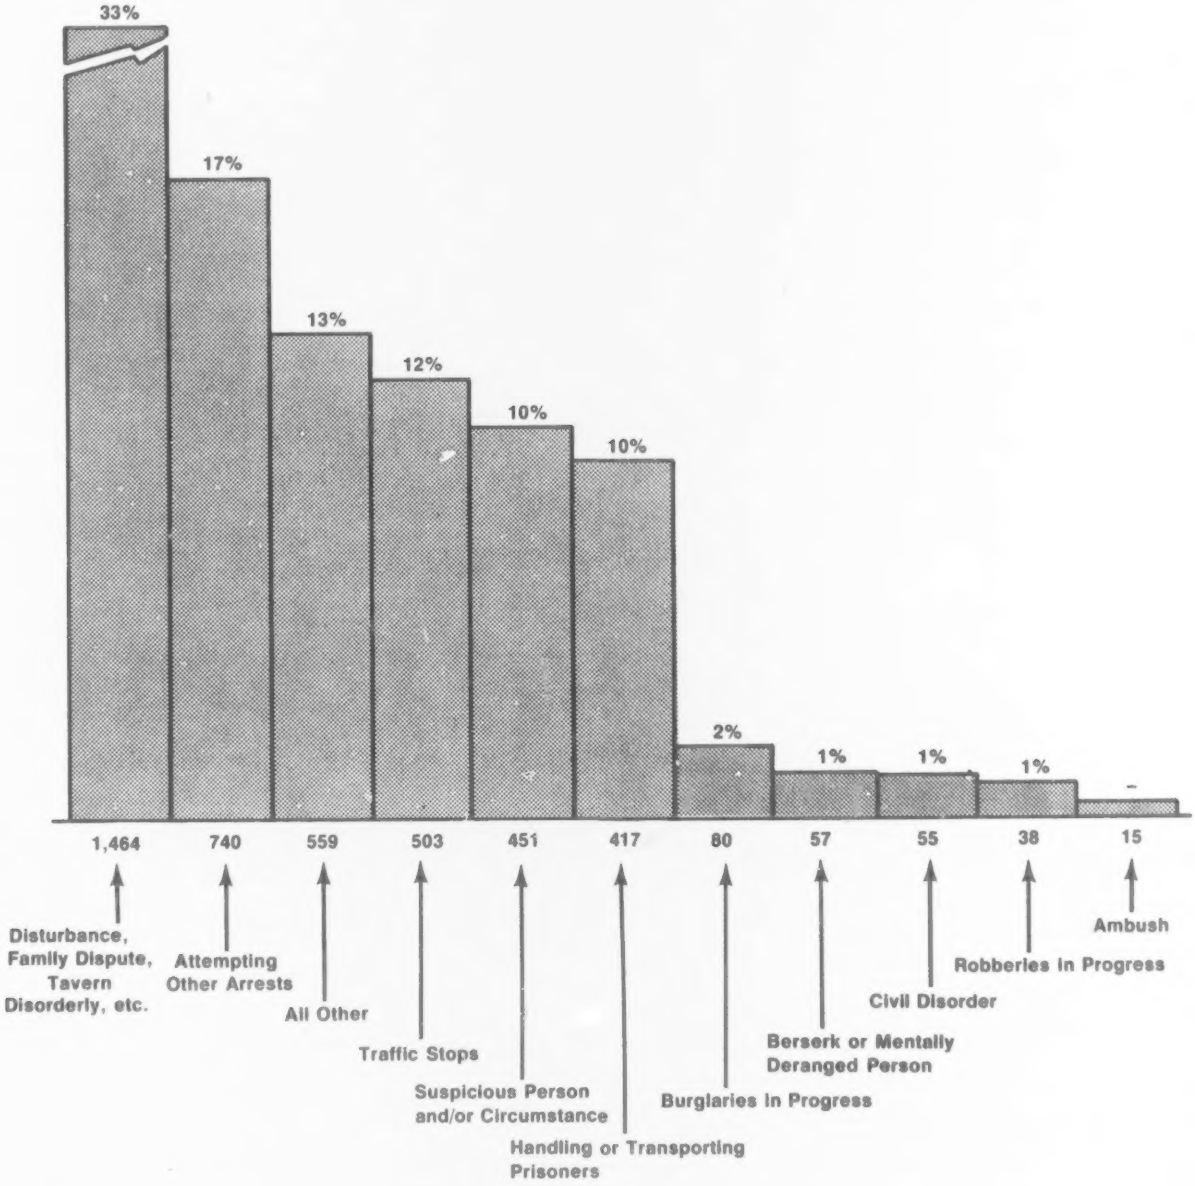
- County law enforcement agencies reported 253 officers assaulted, with 110 sustaining physical injury.
- The New Jersey State Police reported 67 troopers assaulted, with 22 sustaining injuries.
- Other state agencies with police powers, reported 151 officers assaulted and 145 sustained injury.
- University/college police agencies reported 13 officers assaulted with 4 sustaining injury.

WEAPONS USED IN ASSAULTS ON MUNICIPAL POLICE OFFICERS

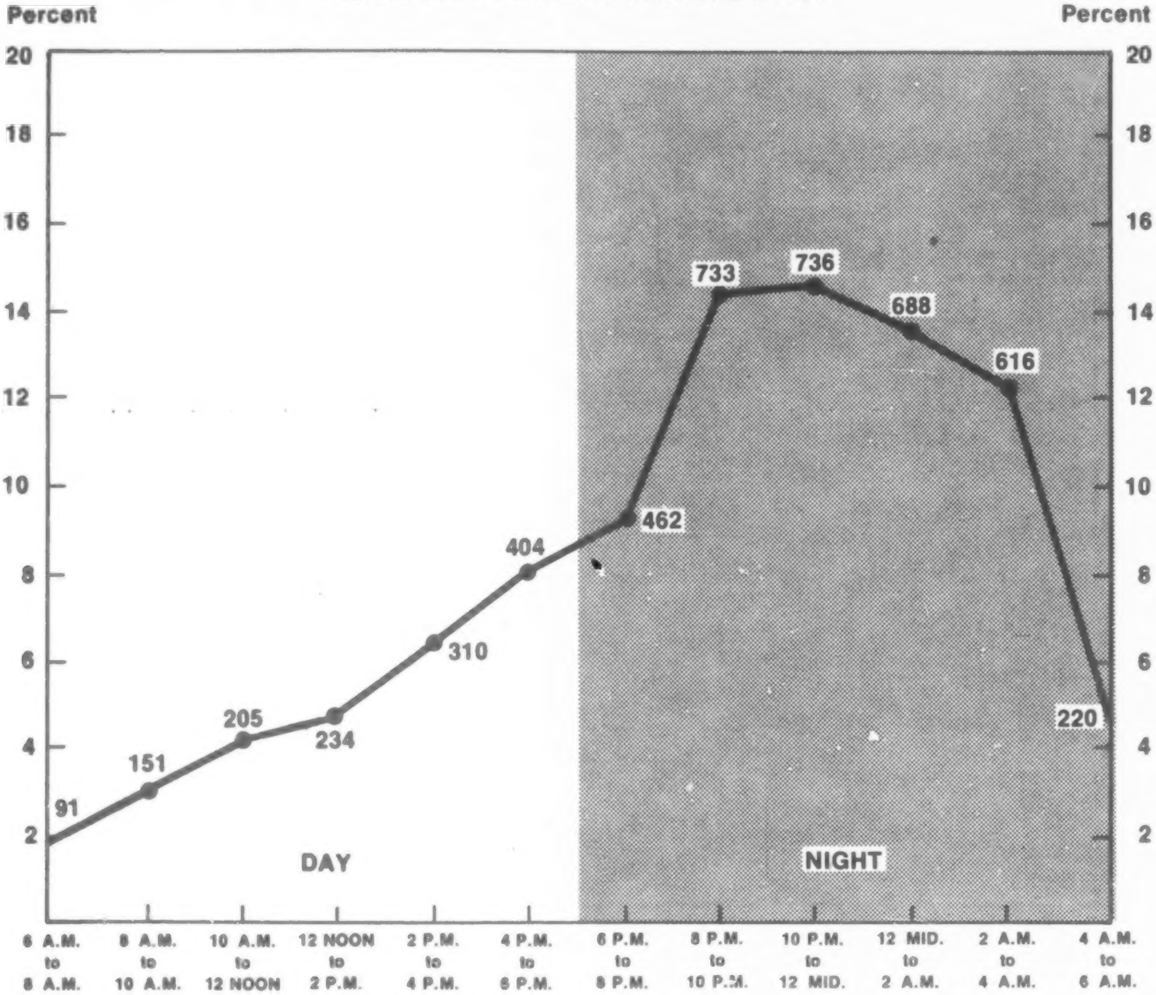


- Personal weapons, such as hands, fist and feet were used in 90 percent of all police assaults.
- Thirty-three percent of police assaults occurred when officers were responding to disturbance calls.
- Officers attempting other arrests accounted for 17 percent of the police assaults.
- Traffic stops accounted for 12 percent of the police assaults.
- Suspicious persons and handling or transporting prisoners, each accounted for 10 percent of the reported police assaults in 1981.

MUNICIPAL POLICE OFFICERS ASSAULTED BY TYPE OF ACTIVITY



ASSAULTS ON MUNICIPAL POLICE OFFICERS BY HOUR OF DAY
NUMBER—PERCENT DISTRIBUTION



- The four hour period of 8:00 p.m. to midnight accounted for over 30 percent of the assaults on police officers.
- Fifty-seven percent of the police assaults occurred during the eight hour period between 8:00 p.m. to 4:00 a.m.

ARRESTS/CLEARANCES

- The police of New Jersey were successful in clearing 98 percent of the assaults directed at them.
- Thirty-seven percent of those arrested for police assaults were charged with an indictable offense and the remainder were charged with the lesser non-indictable offense.
- Juveniles accounted for 9 percent of those arrested for assaults on police officers.

POLICE OFFICER ASSAULTED SCENARIO

A municipal officer is assaulted by an individual using physical force between the hours of 8 p.m. and 4:00 a.m.; the officer is answering a disturbance call and the offender will be arrested in 98 percent of the cases.

GLOSSARY OF TERMS

ADULT	For Uniform Crime Reporting purposes, a person aged 18 or over.
AMERICAN INDIAN or ALASKAN NATIVE	A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.
ARREST RATE	The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 1,000.
ASIAN or PACIFIC ISLANDER	A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area includes for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.
BLACK	A person having origins in any of the black racial groups of Africa.
CLEARANCE	For Uniform Crime Reporting purposes, the solution to a particular crime, usually by the arrest of the offender.
CLEARED BY ARREST	For Uniform Crime Reporting purposes, an offense is cleared when the offender has been identified, sufficient evidence has been obtained to formally charge and the offender has been ordered to appear in court.
CRIME INDEX	The sum total of seven major offenses used to measure the extent, fluctuation and distribution of crime in a geographical area. The following crimes make up the Index: Murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft; these offenses are referred to as Index offenses.
CRIME RATE	The number of Index offenses reported for each unit of population per 1,000.
CRIMES AGAINST PERSONS	Consists of the following index offenses: Murder, forcible rape, and aggravated assault.
CRIMES AGAINST PROPERTY	Consists of the following Index offenses: Robbery, burglary, larceny-theft, and motor vehicle theft.
DAY	For Uniform Crime Reporting purposes, the hours from 6 a.m. to 6 p.m.
EXCEPTIONAL CLEARANCE	For Uniform Crime Reporting purposes, an offense is cleared in this manner when an offender has been identified, located and sufficient evidence to charge has been obtained but there is some reason beyond police control which prohibits the offender from being brought before the court.
HIERARCHY RULE	For Uniform Crime Reporting purposes, each crime or attempted crime is counted in only one offense category. If several offenses are committed, simply glance down the list of Part I offenses and stop at the first offense you recognize from the facts given; this offense is the correct classification for this criminal activity.
JUVENILE	For Uniform Crime Reporting purposes, a person under the age of 18.
JUVENILE CLEARANCE	Those crimes where the offenders are identified as juveniles.
NIGHT	For Uniform Crime Reporting purposes, the hours from 6 p.m. to 6 a.m.

NONVIOLENT CRIME	Consists of the following Index offenses: Burglary, larceny-theft, and motor vehicle theft.
PART I OFFENSES	The first of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft, make up the Part I offenses. These crimes are by their very nature more serious and/or occur more frequently. The monthly tabulation of Part I offenses provides a count of "offenses known."
PART II OFFENSES	The second of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part II offenses are generally less serious in nature.
VIOLENT CRIME	Consists of the following Index offenses: Murder, forcible rape, robbery, and aggravated assault.
WHITE	A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

CALCULATIONS OF RATES AND TRENDS

1. **Crime Rate per 1,000 Inhabitants**—This represents the number of Index offenses per 1,000 inhabitants.
   For example: What is the crime rate for a municipality with 513 Index offenses (murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft), with a population of 8,280?
   513 (Index offenses) ÷ 8,280 (population) = .061957 x 1,000 = 62.0 (crime rate per 1,000 inhabitants)

2. **Crime Trend**—A crime trend shows the extent to which crime increased or decreased. This is done by comparing a period of the current year with the same period of a previous year.
   For example: A municipality experienced 264 Index offenses in 1980 and 513 Index offenses in 1981. What is the percent of increase?

   513 (1981 Index offenses)—264 (1980 Index offenses) = 249 (numerical increase)

   249 (numerical increase) ÷ 264 (previous year) = .943 x 100 = +94% (percent increase)

   Note: If there were more Index offenses in 1980 than in 1981, we would have a percentage decrease.

3. **Number of Police Personnel Per 1,000 Inhabitants**—This is calculated in the same manner as crime rate.
   For example: A municipality with a population of 8,280 and 28 police personnel. How many police officers are there per 1,000 population?
   28 (police personnel) ÷ 8,280 (population) = .00338 x 1,000 = 3.4 (police personnel per 1,000 inhabitants)

   Note: This formula can be applied to either total police personnel or just police officers per 1,000 inhabitants.

4. **Police Assaulted Rate**—This is calculated at a rate per 100 police officers.
   For example: A municipality with 25 officers had 5 of them assaulted during the month. What is the police assaulted rate?
   5 (police officers assaulted) ÷ 25 (police officers) = .2 x 100 = 20 (police assaulted per 100 police officers).

5. **Clearance Rate**—This refers to the percent of Index offenses cleared (solved), over a specified period of time.
   For example: A municipality with 513 Index offenses in 1981, cleared 95 of these offenses. What is the clearance rate?
   95 (Index offenses cleared) ÷ 513 (Index offenses) x 100 = 18.5 (percent cleared).
